

GUERNSEY CENSUS

1976

FOREWORD

The Census of Population was taken on the night of 25/26 April and was conducted by officers of the States Advisory and Finance Committee under powers conferred by "The Census Ordinance, 1976". The States Supervisor, Alec S. Forty, F.B.I.M., F.I.T.E., served as Chief Registrar, and the States Economist, John Cole, B.Sc., M.A., as the Census Supervisor.

The Census Report has been prepared for the Chief Registrar by the Census Supervisor. In presenting the report to the Advisory and Finance Committee the Chief Registrar has discharged himself of the responsibilities conferred upon him by the Ordinance. The Committee in its turn has discharged its responsibilities by transmitting a copy of this Report to the President of the States of Guernsey for the information of States Members.

The statistical analysis of the Census returns has been conducted by the computer department of the States Electricity Board.

The Committee wishes to acknowledge the co-operation it received from the public during the taking of the Census and the assistance it had from States departments. It also wishes to record its gratitude to the United Kingdom Office of Population, Censuses and Surveys for the help afforded to it.

E.D. Collas,
President,
States Advisory and Finance Committee,
States Office,
GUERNSEY.

EXPLANATORY NOTES

INTRODUCTION

A Census of Population has been taken in Guernsey every ten years since 1821, the sole exception being the war time year of 1941. The 1976 Census was the first ever "half-term" Census and the first to be limited to the Island of Guernsey (including Herm, Jethou and Lihou), as opposed to the Bailiwick.

The formal decision to undertake the Census was made by the States of Guernsey on 4 June 1975; a sum of £30,000 was allocated. The law providing the States Advisory and Finance Committee with the necessary powers, "The Census Ordinance, 1976", was made by the States on 27 February 1976.

The Census was taken on the night of Sunday 25/Monday 26 April, a week after Easter and exactly five years after the previous Census.

For Census purposes the Island was divided into eighty districts, to each of which was assigned an enumerator. The enumerators, all local residents specially recruited, were obliged to sign a declaration of secrecy (as were full-time officers of the States engaged on the Census).

Census forms were collected from every private household and from every communal establishment in the Island. As a check on the coverage of the Census, a recall survey was undertaken in May. A representative sample of 206 dwellings were visited and it was ascertained that in every instance a properly completed Census form (or forms) had been submitted. The Census may therefore be regarded with confidence as a reliable measure of both the size of the population and its demographic characteristics.

THE QUESTIONS

The two main Census forms are included in the Report as Appendix IV. The questions are set out below.

Household Section

1. How do you and your household occupy your accommodation?
2. How many rooms are there in your household's accommodation?
3. How many cars or vans are normally available for use by you or members of your household?
4. Of the vehicles mentioned in the previous question, how many are parked at night in a private garage, a private parking area, a public parking area, a road, or any other place?

5-12. Has your household the use of the following amenities on these premises?

A cooker or cooking stove with an oven

A kitchen sink permanently connected to a water supply and a waste pipe

A fixed bath or shower permanently connected to a water supply and a waste pipe

A hot water supply, either piped or direct from a heating appliance, to a washbasin, or kitchen sink, or bath, or shower

A flush toilet (W.C.) with an entrance inside the building

A flush toilet (W.C.) with an entrance outside the building

A refrigerator

A deep-freeze cabinet

13. Is your accommodation connected to a public sewer, a cesspit, a septic tank, or is there some other sewage arrangement?

Personal Section

14. Name
15. Present or absent on Census night
16. Date of birth
17. Age
18. Sex
19. Marital status
20. Resident or visitor
21. Country of birth
22. Year of taking up residence
23. Whether the person had a job last week
24. Employment status
25. Occupation
26. Industry

GLOSSARY OF TERMS

The definitions of the terms used in the Report are given in Appendix I.

NON-PRIVATE HOUSEHOLDS

Persons spending Census night in a communal establishment, such as

a hotel or hospital were enumerated as members of non-private households, unless they had a normal place of residence elsewhere in Guernsey, in which case they were enumerated as though they had spent Census night at their normal place of residence.

In the case of a hostelry, etc. where the manager's household "lived-in" but ate their meals separately from guests, the household was regarded as being an ordinary private household, and only the guests were regarded as forming a non-private household.

HOUSEHOLD SHARING ARRANGEMENTS

Private households were classified according to the extent, if any, to which they shared domestic amenities with other households. Appendix II contains the extract from the enumerator's instruction manual describing the classification procedure.

OCCUPATION AND INDUSTRY

In previous Censuses the systems for classifying employment were based on those used in the United Kingdom, but because Guernsey's economy differs greatly from that of the United Kingdom it was decided that the present Census should use systems specifically designed to meet local circumstances.

Occupations were divided into 45 categories designed to show the kind of work which people actually did. *Industries* were divided into 32 categories. The total employed in any particular industry includes persons engaged in a wide range of occupations. For example, the category "construction" includes not only plumbers, painters and the like but also typists, accounts clerks, and any person employed by a firm in the construction industry.

Many people have employments which cover a number of occupation categories. The "storeman", if he sells goods, is a "sales worker" and, if he also keeps accounts, is a "junior administrator". Many people have more than one job: a "farmer" may be a "grower" and may also, if he takes visitors, be a "hostelry manager". The rule followed was to place people in the category of employment which appeared to take up most of their time.

There are similar difficulties in classifying people according to industry, and the same rule was applied. The definitions of occupations and industries are set out in Appendix III.

DATA PROCESSING

The Census information was processed by the States Electricity Board, following visual checking by staff of the Census Office set up by the Advisory and Finance Committee. The data on each Census form were "keyed" into the computer, an ICL 1901T, using an ICL Key-Edit 100 System. The data were validated for accuracy, completeness and internal consistency before the statistical tables were produced.

- NOTE: (a) The figures represent the number of households parking 1 car, 2 cars, 3 cars etc. in a private garage, private parking area etc. For example, 135 households park 2 cars in a public parking area, 5 park 3 cars in the road.
- (b) This table relates to the cars available for use by members of private households.

COMMENTARY

INTRODUCTION

It was States' concern about the apparent rapid rise in the Island's population which led them as early as March 1973, to resolve "that a limited housing Census be carried out in 1976".¹ Then, in September 1974, in accepting the Advisory and Finance Committee's Economic Development Policy they resolved "to approve a limitation of 7% for the population growth rate for the next 10 year period".² At the same time the States accepted that, whilst in the years 1975 and 1976 an annual rate of population growth of 1% should be the objective, in the long term the aim should be a growth rate of not more than 0.5% per annum.

Continuing concern about population growth led the Advisory and Finance Committee in March 1975 to form the Population Working Party, composed of officers of States committees concerned about population. The Working Party was given a mandate "to produce official annual estimates of population, together with future projections".³ Its first report was published in May 1976.⁴

The formal decision to undertake the 1976 Census was made by the States in June 1975⁵ and the necessary legislation was enacted in February 1976.⁶ The Census was taken at midnight on April 25/26. Besides being the first quinquennial Census, the 1976 Census differed in a number of respects from previous Censuses and, in appraising the results of the Census, care has to be taken to ensure that the meaning of each set of statistics is understood and that any comparison drawn with previous Censuses is valid.

The primary differences between the 1976 and 1971 Censuses are as follows :

- Alderney and Sark were excluded (though Herm, Jethou and Lihou were included);
- The number of questions was reduced;
- greater effort was made to ensure full compliance in the completion of Census forms by absentee households;
- the classifications of occupation and industry were revised;
- the emphasis of the statistical analysis was changed from the *Census night* population to the *resident* population.

CENSUS NIGHT POPULATION

The number of persons present in Guernsey, Herm and Jethou on Census night was 54,381, an increase of 2,923 (5.7% since 1971). This total included 2,934 visitors and excluded 2,190 residents who were absent from the Census area on Census night. Traditionally it is the Census night population which has been regarded as "the population" but with the increasing importance of tourism and the greater mobility of the resident population, this statistic is becoming less useful for planning purposes.

1. Billet d'Etat II, 1973
2. Billet d'Etat XIV, 1974
3. Billet d'Etat VI, 1975

4. Billet d'Etat X, 1976
5. Billet d'Etat X, 1975
6. Billet d'Etat IV, 1976

The table below shows how the Census night population has changed since the first Census in 1821. The annual rate of change since 1971 was 1.1%, somewhat lower than in the period 1961 - 71 (1.4%).

Census Night Population, 1821 - 1976

<i>Year</i>	<i>Population</i>	<i>% Change p.a.</i>	<i>Year</i>	<i>Population</i>	<i>% Change p.a.</i>
1821	20,339		1911	41,858	0.3

1891	35,387	0.8	1976	54,381	1.1
1901	40,474	1.4	* estimate		

RESIDENT POPULATION

For the purpose of the present Report the term *resident population* was taken to comprise all persons resident in Guernsey, Herm or Jethou at midnight 25/26 April whether or not they were actually present in the Islands at that time. This definition differs from that adopted in previous Census reports and from that used by the Population Working Party in its first report. In all these cases the resident population was taken to be the Census night population less visitors, *i.e. absentee residents were excluded.*

No one definition is suitable for all planning purposes. In some cases it is useful to include visitors; in other cases, it is not. The same is true for absentees. On balance, however, the inclusion of absentees and the exclusion of visitors provides the statistic of greatest all-round advantage.

The 1976 resident population on the new definition was 53,637 of whom 51,447 were present and 2,190 absent. In 1971 there were 49,399 present and 1,522 (estimated) absent, giving a resident population of 50,921. The intercensal increase was 2,716, the resident population having grown at an annual rate of 1.0%.

POPULATION WORKING PARTY ESTIMATES

The Working Party first estimates of the *end-year* resident population, but *excluding absentees*, were as follows :

1971	50,042	1976	52,359	1981	53,954
1972	50,330	1977	52,744	1982	54,173
1973	50,799	1978	53,096	1983	54,360
1974	51,299	1979	53,415	1984	54,514
1975	51,942	1980	53,701	1985	54,636

The estimates for 1971 - 75 were founded on the 1971 Census results, the records of births and deaths, and migration estimates based on changes in the numbers of children at school. The population estimates for 1976 - 85 were obtained by projecting into the future the current trends of births, deaths and migration.

The outcome of the present Census was a total of 51,447 residents present in the Islands on Census night, 495 less than the Working Party's estimate for end-1975. In its first Report, the Working Party predicted on the basis of current trends, that the population would grow by 6.27% during the decade to 1984, i.e. within the maximum specified by the States in 1974. It may reasonably be presumed that the revised estimates to be included in the Working Party's next Report will show a lower anticipated growth rate.

THE DEFINITIONS COMPARED

The population situation may be summarised as follows :

	1971	1976
Resident, excluding absentees	49,399	51,447
Resident, including absentees	50,721	53,637
Census night	51,458	54,381

SEX, AGE AND MARITAL STATUS

The demographic data available from previous Censuses relate to the Census night populations. However, as will be seen from the following tables, the *characteristics* of the 1976 resident and Census night populations do not differ significantly. Valid comparisons may therefore be made between the present and previous Censuses.

The table below shows the *age* distribution changes which have occurred since 1951, and provides a comparison with the United Kingdom. The significant features are :

- the fall in the proportion of children since its high point (related to the first post-war "baby bulge") in 1961
- the smaller proportion of children in Guernsey as compared with the United Kingdom
- the continuing growth in the proportion of persons aged 65 and over
- the higher proportion of persons aged 65 and over in Guernsey as compared with the United Kingdom

Age of the Population, 1951 - 76

Age	Census night population				Resident population	U.K. "home" population*
	1951 %	1961 %	1971 %	1976 %	1976 %	1975 %
14 and under	23.2	24.1	23.3	21.6	21.8	23.3
15 - 24	13.4	12.2	14.9	14.2	14.9	14.3
25 - 34	13.9	12.0	12.0	13.8	13.8	13.7
35 - 44	14.6	12.7	11.4	11.8	11.7	11.4
45 - 54	12.7	13.6	12.0	12.1	11.8	12.2
55 - 64	10.2	11.7	12.1	11.5	11.2	11.1
65 and over	12.0	13.7	14.3	15.0	14.8	14.0
Total	100.0	100.0	100.0	100.0	100.0	100.0
Working Age	62.1	59.3	59.3	60.3	60.4	59.7

*provisional estimates

The next table shows the distribution of the population by *sex* and *marital status*. The proportion of males to females has not varied significantly since 1951. The marital status distribution exhibits the following characteristics :

- the proportion of single persons continues to fall (partly as a result of the falling proportion of children)
- the proportions of married and divorced persons continue to rise
- the proportion of widowed persons is remaining fairly constant

Sex and Marital Status of the Population, 1951 - 76

	Census night population				Resident population
	1951 %	1961 %	1971 %	1976 %	1976 %
Male	48.4	48.1	48.1	48.3	48.3
Female	51.6	51.9	51.9	51.7	51.7
Single	42.9	41.3	40.1	39.1	39.8
Married	49.3	50.6	51.7	52.3	51.6
Widowed	7.2	7.4	7.2	7.1	7.1
Divorced	0.6	0.7	1.0	1.5	1.5
Total	100.0	100.0	100.0	100.0	100.0

SCHOOL POPULATION

For the first time at a Census, information was obtained on the

junior school catchment areas in which young persons lived. The data confirm that the birth rate is now substantially lower than during the second post-war "baby bulge" period of the early 1960's. As the following table shows, during the next five years there should be a fall of about 14 per cent in the size of the resident population aged 5 - 14, assuming no migration over that period. The data do not correspond exactly with Education Council records of schoolchildren because some children are educated privately, some are educated outside Guernsey, and some stay on at school beyond the statutory minimum leaving age.

Schoolchildren (5 - 14) Population

September 1, 1976	8,364
" " , 1977	8,245
" " , 1978	8,027
" " , 1979	7,774
" " , 1980	7,496
" " , 1981	7,226

The position beyond 1981 will depend upon future trends in the birth rate, the rate of migration, and States education policy.

BIRTH PLACE

Because of changes from Census to Census in the questions and the analysis of them, it is not possible to make precise comparisons of the distributions of birth places. In 1951, 75.7% of Bailiwick residents were found to have been born in the Bailiwick. In 1961, the proportion was 73.4%. In 1971, it was found that of the persons resident in Guernsey, 71.4% had been born in the Bailiwick. The present Census shows that the proportion of locally-born persons resident in Guernsey was 67.2% (67.8% born in the Bailiwick). The number of persons continually resident since birth was 28,216 (52.6%).

The distribution of birth places determined by the present Census was : Guernsey, 67.2%; Alderney, 0.4%; Sark, 0.2%; Jersey, 1.0%; England, 23.4%; Wales, 1.0%; Scotland, 1.7%; Northern Ireland, 0.9%; Republic of Ireland, 0.5%; and elsewhere, 3.7%.

Analysis of birth place by age shows, as would be expected, that the highest incidence of Guernsey-born residents is in the age group 0 - 9. The lowest incidence, 50.0%, is in the age group 20-29, illustrating the impact on the population of the young working immigrants who settled in Guernsey during the period of high immigration for approximately 3 years in the late 1960's to early 1970's, and the opposite tendency, now perhaps somewhat arrested, for young Guernsey-born persons to leave the Island for education and then employment.

*Proportion of Guernsey-born persons
in different age-groups, 1976*

0 - 9	.77	40 - 49	.66
10 - 19	.56	50 - 59	.60
20 - 29	.50	60 - 69	.63
30 - 39	.66	70 +	.65

MIGRATION

Care must be taken when considering the Census data on migration. During the intercensal period 1971-76 the number of persons taking up residence was approximately 7,150.¹ Since the increase in the resident population was 2,716 and since the excess of births over deaths was approximately 430, the number of persons *leaving the Island* during 1971-76 may be estimated to have been 4,764.

The immigrant totals include both persons setting up home permanently in the Island and short-stay immigrants. The 1976 total, for example, includes many seasonal workers (about half working in the accommodation and catering sectors of the economy) who may now be presumed for the most part to have left the Island. The totals also include Guernsey-born persons and their families returning to the Island. The pattern of immigration is shown in the following table :

<i>Date of taking up residence</i>		
	<i>NO</i>	<i>%</i>
Resident since birth	28,216	52.7
Before 1950	7,881	14.7
1950 - 59	2,831	5.3
1960 - 69	6,353	11.8
1970	871	1.6
1971	880	1.6
1972	1,190	2.2
1973	1,150	2.1
1974	1,534	2.9
1975	1,625	3.0
1976	1,106	2.1
Total	53,637	100.0

The next table shows the age distribution of persons who took up residence in either 1975 or 1976. It shows the high concentration of immigrants in the age range 15 - 34.

1975/76 immigrants by age and sex

	<i>Total</i>	<i>Male</i>	<i>Female</i>	<i>Resident Population</i>
	<i>%</i>	<i>%</i>	<i>%</i>	<i>%</i>
0 - 14	17.7	18.5	16.9	23.3
15 - 34	54.3	52.0	56.7	28.0
35 - 54	18.1	19.8	16.4	23.6
55 +	9.9	9.7	10.0	25.1
Total	100.0	100.0	100.0	100.0

¹ This total was derived by taking the total for the years 1972 - 76 and adding an estimate for those taking up residence in 1971 after Census night.

ECONOMICALLY ACTIVE POPULATION

Changes in definitions make it impossible to make precise comparisons with previous Censuses. It would seem however that since 1951 the proportion of *economically active* persons has risen slightly with each successive Census, though it may now have reached a plateau. The post-war trends have been towards earlier retirement and longer full-time education, whilst acting in the opposite direction there has been the increasing tendency for married women to go out to work. In 1976, 25,577 persons (47.7% of the resident population) were economically active, i.e. working, full or part-time, or seeking work. The proportion of economically active males was 62.4% (59.1% full-time) and of females 34.0% (21.4% full-time).

Of the economically active population, 82.1% were employees, 7.3% self-employed with employees, and 10.6% self-employed without employees. As would be expected the incidence of self-employment among men (23.9%) is much greater than among women (8.8%).

ECONOMICALLY INACTIVE POPULATION

The *economically inactive* population totalled 28,060 persons (52.3% of the resident population) divided : in full-time education, 24.9%; housewives, 15.7%; wholly retired, 9.9%; permanently disabled, 1.2%; and other reasons, 0.5%. The categorisations were somewhat arbitrary. A permanently disabled man aged 80 might have classified himself as either disabled or retired. A female aged 65 might have classified herself either as a housewife or as retired.

OCCUPATION

As was stated in the Explanatory Notes, the work force was divided into 45 occupational groups based upon the kind of work people do. A typist, for example, would have been categorised as a typist whether she worked for a grower, a hotelier, the States or whatever.

The results summarised in the table below confirm the economic trends noted elsewhere,¹ namely that

- whilst greenhouse workers form the largest single occupational group, markedly so for males, their number continues to fall;
- the number working in offices continues to rise and, because of the larger number of females, now exceeds the number working in greenhouses or on the land;
- among males, work in the building industry is almost as popular as work in greenhouses or on the land;
- among females, shop workers comprise the largest single category.

¹ Economic Development Plan, Billet d'Etat XI, 1972
 Economic Development Policy, Billet d'Etat XIV, 1974
 Economic Report, Billet d'Etat V, 1976

Main occupational groups of the economically active population, 1976

	Total		Male		Female	
	%	%	%	%	%	%
Greenhouse workers	11.7)		14.4)		6.7)	
Farm workers	0.9)	13.6	1.3)	17.3	0.3)	7.0
Gardeners	1.0)		1.6)		0.0)	
Skilled building workers	7.2)		11.2)		0.0)	
Unskilled building workers	2.0)	11.0	3.1)	17.1	0.0)	0.0
Electricians, plumbers	1.8)		2.8)		0.0)	
States workers	9.1)		5.3)		15.6)	
Warehousemen	1.6)	10.7	2.4)	7.7	0.2)	15.8
Hostelry workers	4.5)		2.5)		7.8)	
Hostelry managers	3.1)	7.6	2.8)	5.3	3.5)	11.3
Transport workers	4.3)		6.5)		0.3)	
Automotive workers	2.4)	7.4	3.8)	11.3	0.0)	0.3
Airmen, seamen	0.7)		1.0)		0.0)	
Junior administrators	10.5)		8.2)		14.4)	
Typists, etc.	3.3)	16.8	0.2)	12.8	8.6)	23.5
Senior administrators	3.0)		4.4)		0.5)	

INDUSTRY

The industry analysis is complementary to that for occupation. The typist working for a grower would have been placed in the category "glasshouse crop production". If she changed employment to work in the office of a garage, say, she would have found herself classified under "automotive services".

As with the occupation analysis, the results for industry confirm the known economic facts about Guernsey. The growing industry was found to be the largest employer of labour (3,921 persons, 15.3% of the economically active population), followed by retail and wholesale distribution (3,318, 13.0%), construction (2,724, 10.7%), accommodation and catering (2,124, 8.3%), miscellaneous private services (1,622, 6.3%), States manual work (1,346, 5.3%), and banking and insurance (1,078, 4.2%). Export manufacturing (light industry) employed 853 persons (3.3%) but when account is taken of those categorised elsewhere the total rises to approximately 1,100.

Comparison with the pattern of industry in the United Kingdom shows as would be expected

- the greater relative importance of horticulture, accommodation and catering, construction and the service industries associated with tourism and urban communities;
- as a counterpart to the above, the relative absence in Guernsey of manufacturing industry.

Persons taking up residence in 1975 and 1976 exhibited substantially different employment characteristics from the total economically active population, a much greater proportion working in accommodation and catering. The analysis for 1976 showed that 49.6% were employed demonstrating that many of these "immigrants" were in fact *short-stay seasonal workers*. Relatively few were employed in the construction industry.

Industry of the economically active population, 1976

	Total %	Year of taking up residence	
		1975 %	1976 %
Glasshouse crop production	15.3	5.3	13.0
Selling	13.0	8.4	5.7
Construction	10.7	8.4	5.7
Accommodation and catering	8.3	25.2	49.6
Miscellaneous private services	6.4	0.3	1.3
States manual work	5.2	3.0	1.3
Other industries	41.1	49.4	23.4
Total	100.0	100.0	100.0

COMMUNAL ESTABLISHMENTS

Communal establishments provided the place of normal residence for 1,424 persons (2.7% of the resident population). The Census night population in such establishments was made higher because many visitors were staying in tourist accommodation and because some residents spent Census night in such establishments (e.g. in hospital) but were enumerated at their normal place of residence. The 1,424 persons were distributed : 463 (32.5%) in tourist accommodation; 265 (18.6%) in old people's homes; 251 (17.6%) in hospitals; 126 (8.9%) in educational establishments; 80 (5.6%) in nurses homes; 50 (3.5%) in nursing homes; 43 (3.5%) in children's homes; 14 (1.0%) in prison; and 132 (9.3%) in other communal establishments.

DWELLINGS

The stock of dwellings grew by 11.2% in the five years from 1971 and by 60% in the twenty-five years from 1951. There were in 1976, 17,824 dwellings of which 1,040 were vacant (5.8%). Many of the vacant dwellings were units of tourist self-catering accommodation. When allowance is made for this the proportion of vacant dwellings is found not to have been dissimilar from the proportion in the United Kingdom. Only 4.7% of dwellings contained more than one household space and, as the table below illustrates, the majority of dwellings had either 5 or 6 rooms.

Size of occupied dwellings, 1976

<i>Rooms</i>	<i>%</i>	<i>Rooms</i>	<i>%</i>
1	0.3	6	22.3
2	1.9	7	11.9
3	4.5	8	7.2
4	13.1	9	3.8
5	28.5	10	6.5

PRIVATE HOUSEHOLDS

Excluding Herm and Jethou, there were 18,127 private households containing 52,169 resident persons. As would be expected from the analysis of dwellings, 5-roomed and 6-roomed household spaces were the most common.

Room size of occupied household spaces, 1976

<i>Rooms</i>	<i>Households</i>	<i>Rooms</i>	<i>Households</i>
<i>NO</i>	<i>%</i>	<i>NO</i>	<i>%</i>
1	1.2	6	20.8
2	3.9	7	10.7
3	6.8	8	6.2
4	15.5	9	3.0
5	27.5	10+	4.4

In 1951 in Guernsey, Herm and Jethou there were 12,411 private households containing 41,124 persons - an average of 3.31 persons per household. By 1976, the average had fallen to 2.88.

HOUSEHOLD TENURE

The proportion of home ownership continues to rise. In 1976, 63.5% of households were owner-occupied, compared with 59.9% in 1971. The most recent available comparative figure for the United Kingdom relates to 1971 when the figure was 50.0%. Further comparison shows that the proportion of publicly-owned housing in Guernsey (10.2%) is much smaller than in the United Kingdom (30.7%).

Household tenure of resident population, 1976

	<i>Households</i>	<i>Persons</i>
	%	%
Owner-occupied	63.5	64.3
Rented from States	10.2	13.1
Unfurnished private let	16.2	13.5
Furnished private let	6.7	5.0
Held through employment	2.8	3.4
Rented with business	0.6	0.7
Total	100.0	100.0

HOUSEHOLD SIZE

Successive post-war Censuses have shown steady reductions in the degree of domestic overcrowding and the 1976 Census proved no exception. It has been customary to measure overcrowding by the proportion of households with more than 1.50 persons per room, and on this measure Guernsey has now only an insignificant degree (0.7%) of overcrowding.

The average number of persons per room in all households was 0.52, a decrease of 0.02 since 1971. This indicates that during the period 1971 - 76 new dwellings were being built (or more precisely rooms were being built) at a faster rate than the resident population was growing.

As would be expected it was generally the larger households which lived in the most crowded conditions. Analysis by tenure shows that owner-occupiers generally lived in the least crowded circumstances and persons in rented furnished accommodation the most crowded.

Average number of persons per room, 1976

<i>Persons</i>	<i>All tenure</i>	<i>Owner-occupied</i>	<i>Rented furnished</i>
1	0.22	0.18	0.39
2	0.38	0.34	0.57
3	0.53	0.49	0.74
4	0.66	0.63	0.78
5	0.78	0.74	0.86
6+	0.99	0.89	0.96
Total	0.52	0.68	0.61

The two-person household was the most common, the distribution being 1 person, 16.1%; 2 persons, 33.6%; 3 persons, 18.5%; 4 persons, 18.7%; 5 persons, 8.3%; and 6 or more persons, 4.85%

DOMESTIC FACILITIES

Ascertaining the availability in private households of various domestic facilities is a simple if rather crude way of gauging the extent to which the living conditions of a community are changing. The table below shows that since 1961 there has been a marked improvement. For example, whereas in 1961 34.7% of households had no fixed bath or shower, in 1976 the proportion was 9.6%. Similarly, in 1961 37.9% had no hot water supply, whereas in 1976 the proportion was 7.2%. Since 1971, the proportion of households lacking a refrigerator has fallen from 24.4% to 9.2%. There has also been a considerable growth in the ownership of freezers, in 1971, 9.2% and in 1976, 33.5%.

The most recent available figures for the United Kingdom relate to 1971 in which year it was found that 8% of dwellings lacked a fixed bath and 12% an inside flush toilet.

Availability of domestic facilities, 1961 - 1976

	1961	1971	1976
	%	%	%
Cooker with oven	n/a	99.0	99.5
Kitchen sink	n/a	92.5	96.5
Fixed bath/shower	65.3	82.8	90.4
Hot water supply	62.1	85.3	92.8
Inside flush toilet	n/a	81.3	88.8
Refrigerator	n/a	75.6	90.8
Freezer	n/a	9.2	33.5

n/a = not available

The proportion of occupied dwellings connected to the *main sewerage system* was 50.7. There has been little change since 1971

because about half the new dwellings have been built in areas not served by the main sewerage system.

CARS AND PARKING

The resident population had available to them for private use 19,147 cars or vans, an increase of 3,646 (23.5%) since 1971. There were 25.3% of households without a car compared with 31.0% in 1971. The full comparison is set out below.

Households by availability of cars for domestic use, 1971 - 76

	1971 %	1976 %
No car	31.0	25.3
1 car	48.1	48.8
2 cars	17.6	21.9
3 cars	2.7	3.1
4 cars	0.4	0.7
5 cars or more	0.2	0.2
Total	100.0	100.0

The parking arrangements were as follows: 8,482 (44.3%) cars were parked in private garages; 8,510 (44.4%) in private parking areas; 1,046 (5.5%) in public parking areas; and 1,109 (5.8%) in the road or elsewhere.

APPENDIX I

GLOSSARY OF TERMS

Census Night Population

All persons present in Guernsey, Herm, Jethou or Lihou at midnight 25/26 April, irrespective of nationality or normal place of residence (i.e. inclusive of visitors and exclusive of residents absent from the Islands), including persons on board vessels moored in the harbours or marinas.

Resident Population

All persons resident in Guernsey, Herm, Jethou or Lihou at midnight 25/26 April whether present in or absent from the Islands at that time.

Visitor

A person normally resident outside Guernsey, Herm, Jethou or Lihou, not working or seeking work in the Islands, and visiting the Islands for less than a month.

Resident

A person not being a visitor.

Dwelling, structurally separate

A building containing residential accommodation with access from outside. (For example, a block of flats with a common entrance is regarded as one dwelling, but a building converted into two flats each with an outside entrance would be regarded as two dwellings).

Room

An interior portion of a dwelling divided off by walls, or sliding or fixed partitions; other than a kitchen less than six feet wide, a bathroom, a toilet, a scullery not used for cooking, a closet, a pantry, a storeroom, a landing, a hall, a lobby, a recess, or an office or shop used solely for business purposes.

Household, private

One person living alone or a group of persons (who may or may not be related) living at the same address with common housekeeping, including any person staying temporarily with the household and not resident in Guernsey, Herm, Jethou or Lihou.

Communal establishment

An establishment such as an hotel, ship, boarding school, or hospital, in which some form of communal catering is provided.

Economically active population

All persons, being part of the resident population and aged fifteen or over, *either* in employment (including self-employment), whether full or part-time, whether temporary or permanent, at any time in the week prior to 25 April, *or* unemployed during the period but seeking work or waiting to take up a job (including persons temporarily in ill health).

Economically inactive population

All persons, being part of the resident population, not economically active.

APPENDIX II

HOUSEHOLDS SHARING ACCOMMODATION: EXTRACT FROM INSTRUCTION MANUAL

"You must also determine whether, in the case of two or more households living in the same building, these households share any part of their accommodation.

In the "For Enumerator Use Only" panel on the first page of the H form, you are asked to specify the *degree of sharing*, if any, existing between households living in the same dwelling, by putting a cross (X) in the box against the answer which applies. There are three possible answers:

- (1) no sharing
- (2) passage only
- (3) more than passage

What we really want to know is the extent to which households share accommodation as distinct from occupying their own self-contained accommodation. There are so many different circumstances - sometimes only a kitchen or perhaps a landing are used by other households - that it is essential to have a standard procedure which is applied in every circumstance.

This then is how you should proceed. Ask the following questions:

"Do you share any rooms with any other household(s)?"

Then, whatever the answer to the first question: "Does any member of your household have to come out on to a hall or landing or use stairs between rooms?"

Finally, if the answer to the second question is YES: "Is the space for movement between your rooms also used by any other household(s)?"

This should not cause any difficulty if you bear in mind that:

each household's accommodation has to be studied from the point of view of the household which occupies it; and a passage (by "passage", we mean landing, hall, stairs, etc.) is considered part of a household's accommodation only if it is used by members of that household for movement between the rooms making up the household's accommodation and *not* simply for movement to and from the accommodation itself."

APPENDIX III

CLASSIFICATION OF OCCUPATION AND INDUSTRY

OCCUPATION

<i>Farmers</i>	farmers, farm hands
<i>Growers</i>	growers, greenhouse workers, contract jobbers, market gardeners
<i>Boxmakers</i>	boxmakers, store packers, ancillary workers
<i>Gardeners</i>	gardeners, groundsmen, grave diggers
<i>Fishermen</i>	fishermen (inshore, coastal, deep sea, crustacea)
<i>Quarrymen</i>	quarrymen, blockmakers, tilemakers, ready mix concrete mixers
<i>Electricians</i>	
<i>Plumbers</i>	plumbers, heating engineers, irrigation engineers

<i>Civil Service</i>	civil service (other than States trading undertakings), parish service
<i>States Manual Work</i>	
<i>Professional Service, Public</i>	air traffic controllers, meteorologists, nurses, legal draftsmen, etc.
<i>Professional Service, Private</i>	accountants, advocates, clergymen, doctors, etc.
<i>Inadequate Description</i>	
<i>Place of Work Outside Census Area</i>	

*N.E.C. = not elsewhere classified

APPENDIX IV

1976 CENSUS NOTES

These notes are provided to help you fill in your answers to some of the questions on the form. If, after reading them, you find you are still in difficulty with any of the questions, or if you have any other problems to do with the Census, please ask the Enumerator about them when he (or she) calls to collect your form.

GENERAL The law relating to the Census is "The Census Ordinance, 1976". Copies may be obtained from the Greffa. The term 'Census Area' means Guernsey, Herm and Jethou.

PERSONS TO BE INCLUDED ON THE FORM Complete a line for every person who usually lives in the household whether or not they are related to you. It does not matter whether they actually spend Census night in the household. Count full-time students who may be away from home (say, at college in the United Kingdom) as persons who usually live in the household.

Also complete a line for any visitor to the Census Area who spends Census night in the household.

You do *not* have to complete a line for a person (say, a babysitter) who spends Census night in the household but who usually lives elsewhere in the Census Area. Such persons will be enumerated by the head of the household in which they usually live.

NOTES ON THE QUESTIONS

- A. **ROOMS (Q.2)** Count all rooms in the household's accommodation except small kitchens less than 6 feet wide, bath-rooms and toilets, sculleries not used for cooking, closets, pantries and storerooms, landings, halls, lobbies or recesses, offices or shops used solely for business purposes. A large room divided by a sliding or fixed partition should be counted as two rooms. A room divided by curtains or portable screens should be counted as one room.
- B. **CARS AND VANS (Q.3)** Exclude vans used solely for the carriage of goods.
- C. **NAME (Q.14)** For a baby who has not yet been named write in 'Baby' and the surname.
- D. **RESIDENT OR VISITOR (Q.20)** Persons who usually reside in the Census Area are regarded as residents. Any period of temporary absence from the Census Area, such as a holiday or medical treatment, should be ignored. So should periods of full-time education outside the Census Area.
- E. **COUNTRY OF BIRTH (Q. 21)** Guernsey includes Herm and Jethou. England includes the Isle of Man.
- F. **YEAR OF TAKING UP RESIDENCE (Q.22)** This question must *not* be completed for visitors to the Census Area. For persons who have at any time been resident outside the Census Area, the year in which the *present* period of residence began must be entered in the boxes marked YEAR. If, for example, a person was born in Guernsey, left the Island in 1940, returned in 1945 and has lived in Guernsey ever since, 1945 would be entered on the form.
- VISITORS** Although Q.22 is to be left blank for visitors, the questions relating to employment (Qs 23-26) should be completed for visitors, subject of course to the conditions mentioned on the form and elsewhere in these notes.
- G. **JOB LAST WEEK (Q.23)** A job means any work for payment or profit. It includes, for example, work on a person's own account, jobbing, paid domestic work, casual work of any kind (such as seasonal work or week-end work), or unpaid work in a family business (such as a shop or a viney).
- For any person who is out of work through sickness but who intends to seek work when sufficiently well, put a cross in box 3.
- STUDENTS** The question must *not* be completed for any person under 15 years of age even if they have a part-time job.
- Do *not* count as full-time students persons who are on day release courses from work, or attend night school only, or attend an educational establishment provided by their employers, or are apprentices.
- Do count as full-time students persons of 15 years of age or over who will be in full-time education during the term starting April/May 1976. Ignore any part-time or temporary work undertaken by such persons.
- H. **EMPLOYMENT STATUS (Q.24)** 'Self-employed employing others' means having one or more employees other than members of the same family living in the same household as the employer. Although 'family workers' are not counted for the purpose of deciding whether an employer has employees, they should themselves be recorded as employees.
- I. **OCCUPATION (Q.25)** Full details should be given. If a person's job is known by a special name, use that name. Descriptions such as 'technician', 'engineer', 'fitter', or 'foreman' should not be used by themselves. Fuller information is required such as 'woodworking machinist', 'civil engineer', or 'toolroom foreman'.
- For persons who work for the States, give their job title or rank.
- For members of the armed forces, give their rank or rating only.
- J. **INDUSTRY (Q.26)** Describe the business fully. Avoid general terms such as 'manufacturer', 'agent', 'engineering', or 'farming'. Wherever possible give information about the product dealt with, grown or manufactured.
- For members of the armed forces, give the arm or branch of the service only.

DECLARATION to be made by the head of the household or other person making the return.

I declare that this form is correctly completed to the best of my knowledge and belief.

Date Signature

Completed for any person under 15 years of age.
Used ONLY for the persons who had a job last week or were seeking employment or waiting to take up a job.
Of the person's main employment last week, or of the most recent job if the person was seeking employment or

24 EMPLOYMENT STATUS Put a cross in the appropriate box. See Note H	25 OCCUPATION Give full details of the person's oc- cupation, including a description of the work done. See Note I	26 INDUSTRY Write in the name, address, and nature of the business of the person's employer (or, if self- employed, of the person's own business). Give the trading name if used. Describe the nature of the business. See Note J
1 <input type="checkbox"/> Employee	Occupation	Name and address of business

1976 GUERNSEY CENSUS

For Enumerator Use Only

FORM NO.

--	--	--

H Form for Private Households

TO THE HEAD (OR ACTING HEAD) OF THE HOUSEHOLD

Please complete this form, in ink or with a ballpoint pen, and have it ready for collection early on Monday 26 April. If you need help, do not hesitate to ask the Enumerator.

Before completing the form, please read ALL the questions and the explanatory notes very carefully. In most cases all you are required to do is to put a cross (X) in the box next to the appropriate answer.

The Enumerator may ask you any questions necessary to help him (or her) to complete his (or her) section of the form or to check that you have correctly filled in your section of the form.

Please note that a household means either one person living alone or a group of persons (who may or may not be related) living at the same address and having common housekeeping arrangements. Visitors to the Census Area who are staying temporarily with the household should be included on the Census form.

The information you give on the form will be treated as CONFIDENTIAL and used only for compiling statistics. No information about named individuals will be passed by the Census staff to any other person. If any person employed on the Census improperly discloses information which you provide, he (or she) will be liable to prosecution. Similarly you must not disclose information which anyone (for example, a lodger) gives you to enable you to complete the form.

The legal obligation to fill in the whole form rests on YOU, but each person who has to be included is required to give you the information you need. However, anyone who wishes can ask the Enumerator or the Census Office for a Personal Form which can be returned either to the Enumerator or direct to the Census Office, and then so far as that person is concerned you need answer only question 14.

If you are unable to deliver the completed form personally to the Enumerator, please arrange for some other person to do so on your behalf. You may if you wish hand the completed form to the Enumerator in a sealed envelope.

Would you please take special note of the fact that there are penalties for failing to comply with the requirements described above or for giving false information.

When you have completed the form, please sign the declaration at the foot of the last page.

1976 GUERNSEY CENSUS

P FORM FOR MAKING A PERSONAL RETURN

Will you please complete this form, in ink or with a ballpoint pen, and have it ready for collection early on Monday 26 April. If you need any help whatsoever, do not hesitate to ask the Enumerator.

Before completing the form, please read ALL the questions and the explanatory notes very carefully. In most cases all you are required to do is to put a cross (X) in the box next to the appropriate answer.

The Enumerator may ask you any questions necessary to help him (or her) to check that you have correctly filled in the form.

The information you give on the form will be treated as confidential and used only for compiling statistics. No information about named individuals will be passed by the Census staff to any other person. If any person employed on the Census improperly discloses information which you provide, he (or she) will be liable to prosecution.

Would you please take special note of the fact that you have a legal obligation to complete this form, and there are penalties for failing to do so or for giving false information.

When you have completed the form, please do not forget to sign the declaration.

Census Office, P.O. Box 43,

EXPLANATORY NOTES

These notes are provided to help you fill in your answers to some of the questions on the form. If, after reading them, you find you are still in difficulty with any of the questions, or if you have any other problems to do with the Census, please ask the Enumerator about them when he (or she) calls to collect your form.

GENERAL The law relating to the Census is "The Census Ordinance, 1976". Copies may be obtained from the Greffe. The term 'Census Area' means Guernsey, Herm and Jethou.

D. RESIDENT OR VISITOR (q.20) Persons who usually reside in the Census Area are regarded as Residents. Any period of temporary absence from the Census Area, such as a holiday or medical treatment, should be ignored. So should periods of full-time education outside the Census Area.

E. COUNTRY OF BIRTH (q.21) Guernsey includes Herm and Jethou. England includes the Isle of Man.

F. YEAR OF TAKING UP RESIDENCE (q.22) This question must *not* be completed if you are a visitor to the Census Area.

If you have at any time been a resident outside the Census Area, the year in which your *present* period of residence began must be entered in the boxes marked YEAR. If, for example, you were born in Guernsey, left the Island in 1940, returned in 1945, and have lived in Guernsey ever since, 1945 would be entered on the form.

VISITORS Although q.22 is to be left blank if you are a visitor, you should still complete the questions relating to employment (qs. 23-26) subject of course to the conditions mentioned on the form and elsewhere in these notes.

G. JOB LAST WEEK (q.23) A job means any work for payment or profit. It includes, for example, work on your own account, jobbing, paid domestic work, casual work of any kind (such as seasonal work or week-end work), or unpaid work in a family business (such as a shop or a vinery).

If you are out of work through sickness but intend to seek work when sufficiently well, put a cross in box 3.

STUDENTS You must *not* complete this question if you are under 15 years of age, even if you have a part-time job. Do *not* count yourself as a full-time student if you are on day release courses from work, or attend night school only, or attend an educational establishment provided by your employer, or are an apprentice.

Do count yourself as a full-time student if you are 15 years of age or over and are (or will be) in full-time education during the term starting April/May 1976. Ignore any part-time or temporary work you may have undertaken.

H. EMPLOYMENT STATUS (q.24) 'Self-employed employing others' means having one or more employees other than members of the same family living in the same household as the employer. Although 'family workers' are not counted for the purpose of deciding whether an employer has employees, if you are a 'family worker', record yourself as an employee.

I. OCCUPATION (q.25) Full details should be given. If your job is known by a special name, use that name. Descriptions such as 'technician', 'engineer', 'fitter', or 'foreman' should not be used by themselves. Fuller information is required such as 'woodworking machinist', 'civil engineer', or 'toolroom foreman'.

If you work for the States, give your job title or rank.

If you are a member of the armed forces, give your rank or rating only.

J. INDUSTRY (q.26) Describe the business fully. Avoid general terms such as 'manufacturer', 'agent', 'engineering', or 'farming'. Wherever possible give information about the product dealt with, grown or manufactured.

If you are a member of the armed forces, give the arm or branch of the service only.

FOR ENUMERATOR'S USE ONLY				DECLARATION to be made by the person making the return. I declare that this form is correctly completed to the best of my knowledge and belief.	
Parish No. <div style="border: 1px solid black; width: 20px; height: 20px; display: inline-block;"></div> <div style="border: 1px solid black; width: 20px; height: 20px; display: inline-block;"></div>	Enumeration No. <div style="border: 1px solid black; width: 20px; height: 20px; display: inline-block;"></div> <div style="border: 1px solid black; width: 20px; height: 20px; display: inline-block;"></div>	Y <div style="border: 1px solid black; width: 20px; height: 20px; display: inline-block;"></div> <div style="border: 1px solid black; width: 20px; height: 20px; display: inline-block;"></div>	Z <div style="border: 1px solid black; width: 20px; height: 20px; display: inline-block;"></div> <div style="border: 1px solid black; width: 20px; height: 20px; display: inline-block;"></div>	Date..... Signature.....	

14 NAME	15 PRESENT OR ABSENT ON CENSUS NIGHT	16 DATE OF BIRTH	17 AGE	18 SEX
Write your name and surname on the dotted lines below. <div style="border: 1px solid black; width: 100px; height: 20px; margin-bottom: 5px;"></div> <div style="border: 1px solid black; width: 100px; height: 20px; margin-bottom: 5px;"></div> <div style="border: 1px solid black; width: 100px; height: 20px;"></div>	Put a cross in the appropriate box. 'Present' means present in the Census Area. 'Absent' means absent from the Census Area P <input type="checkbox"/> Present A <input type="checkbox"/> Absent	Write numbers in the appropriate boxes for the day, month and year of your birth. For example: 04.08.1932 15.06.1899 27.12.1955 <div style="display: flex; justify-content: space-around; font-size: small;"> DAY MONTH YEAR </div> <div style="display: flex; justify-content: space-around;"> <div style="border: 1px solid black; width: 20px; height: 20px;"></div> <div style="border: 1px solid black; width: 20px; height: 20px;"></div> <div style="border: 1px solid black; width: 20px; height: 20px;"></div> <div style="border: 1px solid black; width: 20px; height: 20px;"></div> <div style="border: 1px solid black; width: 20px; height: 20px;"></div> <div style="border: 1px solid black; width: 20px; height: 20px;"></div> </div>	Write in your age For example, write 006 for six 042 for forty two, or 102 for a hundred and two. <div style="border: 1px solid black; width: 40px; height: 20px;"></div>	Put a cross in the appropriate box M <input type="checkbox"/> Male F <input type="checkbox"/> Female
