Re-introduction of Tobacco Licences and Tobacco Controls

Proposition: Amendment
Proposed by: Deputy Laurie B. Queripel
Seconded by: Deputy David B. Jones

To delete all the propositions and to substitute therefor:

- “1. To resolve and to affirm that it is an express objective of the States to reduce the prevalence of smoking and other uses of tobacco products, especially among persons who have not attained the age of 18 years.*
- 2. To direct that an amendment be made to the Smoking (Prohibition in Public Places and Workplaces) (Exemptions and Notices) Ordinance, 2006 to remove the States Prison from the exemption to facilitate the smoke free prison strategy.*
- 3. To direct that legislation be drafted to allow the Police to confiscate in the streets and other public places tobacco products and paraphernalia from persons who have not attained the age of 18 years.*
- 4. To direct that legislation be drafted to prohibit commercial importation and retail sales of cigarettes other than in a minimum pack size of 20.*
- 5. To direct that the Health and Social Services Department shall present to the States of Deliberation as soon as possible a States Report outlining the case for the licensing of the sale and supply of tobacco products and any proposals relating thereto which they consider necessary; and to direct that in advance of submitting the Report the Department shall enter into further and comprehensive consultation with all parties potentially affected by such proposals; and to direct that the Report must include a fuller examination of:*
 - i) the merits or otherwise of any licensing regime being funded in whole or in part by the consumers of tobacco products;*
 - ii) the merits or otherwise, either in the short-term during a transition phase or permanently, of permitting persons who have attained the age of 16 years but who have not attained the age of 18 years, and*

who are employed by outlets licensed to sell tobacco products, to sell such products in the absence from the premises of the licensee;

iii) any credible empirical evidence which demonstrates that such a licensing regime will contribute materially to the objective of the States to reduce the prevalence of smoking and other uses of tobacco products, especially among persons who have not attained the age of 18 years.

6. To direct the preparation of such legislation as may be necessary to give effect to their above decision.”
