

WASTE DISPOSAL AND RECYCLING SITES CHARGING GUIDANCE AND CONDITIONS FOR ACCEPTANCE, 2016

This document is provided for site users and staff to provide helpful guidance in relation to charges for acceptance of waste at public waste management sites. The document provides guidance as to the sorts of waste the Waste Disposal Authority (WDA) considers are included in particular descriptions of waste but cannot be exhaustive as to what is included in each description. Words and expressions used in this guidance reflect the provisions of the Regulations under which the charges are made: the Waste Disposal and Recovery Charges Regulations, 2015. It includes other guidance on related matters.

The document also sets which waste can be disposed of or recovered at particular sites¹ and includes certain conditions subject to which waste is accepted at particular sites². Weighbridge categories and relevant charge rates for sites reserved for the disposal and recovery of particular types of waste are included as Appendix 2.

1. Mont Cuet Landfill Site

Waste Category/Description	Guidance on waste included etc. and specified conditions for acceptance	Charge Rate (see Appendices 1 & 2)
1.1 Household Waste or Commercial Waste or a mixture of such waste, excluding specific categories below.	<p>What is included? Mixed loads containing general non-recyclable, non-inert wastes from household and/or commercial sources.</p> <p>Household Waste and Commercial Waste, delivered by contractors licensed to carry waste, or by private householders. Waste is charged by weight, based on the net tonnage of the load.</p> <p>Conditions of Acceptance Loads delivered to Mont Cuet should not contain quantities of Specially Controlled Waste and items/materials that can reasonably be segregated or recycled i.e. have alternative recycling or disposal routes.</p> <p>The disposal of loads containing items/materials which can reasonably be segregated/recycled and have an alternative disposal/recycling route but are contaminated or spoiled prior to, or during collection, will only be accepted by prior approval</p>	<p>Standard Rate for Mont Cuet Landfill Site. 2016: £191.53/t, subject to a minimum charge of £10 per weighed load.</p>

¹ See Appendix 1 which shows which sites are reserved for disposal or recovery of particular types of waste only, with conditions of acceptance included within this document.

² The Waste Disposal Authority can reserve sites for particular descriptions of waste and specify conditions for acceptance of waste under section 32(3) of the Environmental Pollution (Guernsey) Law, 2004.

Waste Category/Description	Guidance on waste included etc. and specified conditions for acceptance	Charge Rate (see Appendices 1 & 2)
	<p>of the Waste Disposal Authority</p> <p>Other Guidance No loads will be reloaded after tipping at Mont Cuet.</p>	
<p>1.2 Household Waste or Commercial Waste or a mixture of such waste, containing quantities of ‘Contaminants’ that can reasonably be segregated or recycled</p>	<p>What is included? A mixed waste load that contains Specially Controlled Waste or contains quantities of items/materials (including certain inert waste) that can reasonably be segregated or recycled i.e. have an alternative recycling or disposal route. (See Appendix 3 for additional information on the application of contamination charges at Mont Cuet Landfill Site).</p> <p>Items/materials which can reasonably be segregated/recycled and have an alternative disposal/recycling route are specified below.</p> <p>i). Tyres: All tyres originating from motorised vehicles (i.e. cars, vans, lorries, motorbikes). Excludes electric bicycles. Recycling Route: Sarnia Autos.</p> <p>ii). Lead Acid Batteries: All lead acid batteries originating from motor vehicles, generators, electrical back-up supplies, etc. No exclusions. Recycling Route: Wastenot, Guernsey Recycling, or Sarnia Autos. <i>(Route for private householder users only: Longue Hougue Recycling Facility).</i></p> <p>iii). Inert waste mixed in with other waste: The Contamination Rate is applied to mixed waste or Green Waste loads containing quantities of inert materials that can reasonably be segregated, i.e. concrete blocks, soil, stone, ceramics, etc.</p> <p>Disposal/Recycling Route: Longue Hougue, Island Aggregates (Ronez), Vaudin Stonemason’s (Granite only). <i>(Route for inert waste for private householder users only: Longue Hougue Recycling Facility (limited to 6 bags per visitor per day)).</i></p>	<p>Contamination Rate. 2016: £287.36/t, subject to a minimum charge of £10 per weighed load.</p>

Waste Category/Description	Guidance on waste included etc. and specified conditions for acceptance	Charge Rate (see Appendices 1 & 2)
	<p>iv). Metal: The Contamination Rate is applied to mixed loads containing metallic objects, and items containing recoverable quantities of metal, i.e. metal pipes, radiators, car parts, metal bicycles, metal furniture and fittings, etc. that could have been diverted for metal recycling.</p> <p>Recycling Route: Guernsey Recycling (All Metals), Scrap-It (Non-Ferrous Metals), or Wastenot (Non-Ferrous Metals), Sparkes Recycling (All metals).</p> <p><i>(Route for private householders only: Longue Hougue Recycling Facility; Mont Cuet Civic Amenity Site).</i></p> <p>v). Cardboard: Cardboard boxes and other cardboard packaging that could have been segregated for recycling, including non-corrugated cardboard.</p> <p>Excludes cardboard contaminated with food residues.</p> <p>Recycling Route: Mayside Recycling</p> <p><i>(Route for private householders only: Longue Hougue Recycling Facility; Mont Cuet Civic Amenity Site, kerbside collections and bring banks).</i></p> <p>vi). Paper: Commercial and/or household deliveries containing recoverable paper, i.e. brochures, office paper, bags of shredded paper.</p> <p>Excludes individual newspapers, magazines and other small paper items in mixed bags.</p> <p>Recycling Route: Mayside Recycling</p> <p><i>(Route for private householders only: Longue Hougue Recycling Facility; Mont Cuet Civic Amenity Site, kerbside collections and bring banks).</i></p> <p>vii). Clear and clean plastic bags and film: Mixed waste loads that contain recoverable quantities of clear and clean plastic bags and film packaging.</p> <p>Excludes the use/re-use of clear plastic bags for the disposal of general waste.</p> <p>Recycling Route: Mayside Recycling</p> <p><i>(Route for private householders only: Longue Hougue Recycling Facility).</i></p>	

Waste Category/Description	Guidance on waste included etc. and specified conditions for acceptance	Charge Rate (see Appendices 1 & 2)
	<p>viii). Pallets (Wood and Plastic): Whole pallets that could be re-used, either wood or plastic. Excludes – damaged/broken pallets. Recycling Route: Guernsey Pallet Company.</p> <p>ix). PVC Window Frames: Window and door frames, either whole or in part, and with or without glass. Recycling Route: Sarnia Recycling <i>(Route for private householders only: Longue Hougue Recycling Facility).</i></p> <p>x). Expanded Polystyrene (EPS): Expanded Polystyrene (EPS) packaging, normally indicated by a number 6 within a recycling triangle. Excludes any food and drink containers, loose-fill packaging (peanuts), and beads. Recycling Route: States Works <i>(Route for private householder users only: Longue Hougue Recycling Facility and selected bring banks)</i></p> <p>xi). Waste Electrical and Electronic Equipment (WEEE), including incomplete items and parts. This includes all cables, power devices and any other items associated with the operation of WEEE which are part of the equipment at the time it is discarded. Appendix 4 provides an indicative list of items under the following categories:</p> <ol style="list-style-type: none"> 1. Large household appliances 2. Small household appliances 3. IT and telecommunications equipment 4. Consumer equipment 5. Lighting equipment 6. Electrical and electronic tools 7. Toys, leisure and sports equipment 8. Medical devices 9. Monitoring and control instruments 10. Automatic dispensers <p>Excludes small items of WEEE such as telephones, toys, calculators, etc., as indicated in Appendix 4 (items shown as exempt from Contamination Charges). Recycling Routes: Guernsey Recycling (All Categories except 5), Galaxy Computers (Category 3)</p>	

Waste Category/Description	Guidance on waste included etc. and specified conditions for acceptance	Charge Rate (see Appendices 1 & 2)
	<p>Scrap-IT (Category 3) Wastenot (Category 5) <i>(Route for private householder users only: Longue Hougue Recycling Facility; Mont Cuet Civic Amenity Site).</i></p> <p>xii). Bonded Asbestos. Mixed loads containing Bonded Asbestos are charged at the Contamination Rate (see 1.3.1 below).</p>	
<p>1.3 Specially Controlled Waste</p>	<p>What is included? Specially Controlled Wastes are wastes identified under waste legislation³ that are dangerous, or difficult to treat, keep or dispose of. Because of their physical, chemical or biological properties, these wastes require special provisions for their disposal.</p> <p>The management and disposal of Specially Controlled Waste is regulated by the Office of the Director of Environmental Health and Pollution Regulation (OEHPR), who must be notified of the presence of Specially Controlled Waste at any premises subject to certain exemptions. Certain Specially Controlled Wastes, not accepted for disposal at Mont Cuet Landfill Site, may be disposed of in the UK under a Duly Reasoned Request (DRR); waste shipments to the UK have to comply with the Transfrontier Shipment of Waste Ordinance, 2002 applying in Guernsey and the requirements of EU waste shipment legislation in relation to the import into the UK/Europe.</p> <p>The Guernsey Health & Safety Executive carry out collections and storage of certain Specially Controlled Waste prior to disposal, either on or off island.</p> <p>Condition of Acceptance. The disposal of Specially Controlled Waste at Mont Cuet Landfill Site is limited to wastes defined in the Waste Management Licence for the site.</p> <p>Other guidance. Specially Controlled Waste is subject to procedures relating to notification to the OEHPR</p>	

³ See section 26 of the Environmental Pollution (Waste Control and Disposal) Ordinance, 2010 and the Waste Control and Disposal (Specially Controlled Waste) Regulations, 2010.

Waste Category/Description	Guidance on waste included etc. and specified conditions for acceptance	Charge Rate (see Appendices 1 & 2)
	of the presence of the waste on premises and consent for the transport of the waste to Mont Cuet Landfill Site from the OEHPR in advance of disposal. Appropriate documentation is required to be completed under the Waste Control and Disposal (Specially Controlled Waste) Regulations, 2010.	
1.3.1 Specially Controlled Waste (Bonded Asbestos only)	<p>What is included?</p> <p>i). Bonded Asbestos. Conditions of Acceptance. Delivery to site before 15:30 (weekdays) or 09:30 (Saturdays). Disposal only in designated areas of Mont Cuet Landfill Site. Loads must be source segregated and not mixed with other waste materials. Mixed loads containing Bonded Asbestos are charged at the Contamination Rate.</p> <p>Excludes fire damaged bonded asbestos which requires the same controls as Fibrous Asbestos and should be disposed of in the same manner as Fibrous Asbestos (see below).</p>	Bonded Asbestos Waste Rate. 2016: £191.53/t, subject to a minimum charge of £10 per weighed load.
1.3.2 Specially Controlled Waste (All others Accepted for Co-Disposal)	<p>What is included?</p> <p>i). Fibrous Asbestos and Fire Damaged Bonded Asbestos. Conditions of Acceptance Disposal by a specialist contractor only, with pre-notification and waste transfer documentation required in accordance with waste legislation. Air monitoring is carried out during disposal operations by the contractor. The date and time of disposal must be pre-arranged to enable a disposal cell to be prepared and other site activities to be suspended during disposal operations.</p> <p>ii). Chemicals. Conditions of Acceptance Disposals of acceptable chemicals can only be carried out by the Guernsey Health & Safety Executive, and are deposited into prepared pits, with treatment applied as required.</p> <p>Other Guidance Specific chemicals cannot be disposed of at Mont Cuet, in accordance with the site's Waste Management Licence (see Appendix 5). Disposal</p>	Specially Controlled Waste Rate. 2016: £382.55/t, subject to a minimum charge of £10 per weighed load.

Waste Category/Description	Guidance on waste included etc. and specified conditions for acceptance	Charge Rate (see Appendices 1 & 2)
	<p>of these chemicals is managed by the Guernsey Health and Safety Executive.</p> <p>Exemptions: Small quantities of publicly available chemicals for domestic use, e.g. pesticides, herbicides, fertilizers, paints/thinners, solvents, and cleaning products – if in doubt, waste holders/producers should consult with the Guernsey Health and Safety Executive.</p> <p>iii). Chemically contaminated spoil. This is spoil contaminated by a dangerous substance as defined in Schedule 1 to the Waste Control and Disposal (Specially Controlled Waste) Regulations, 2010.</p> <p>Conditions of Acceptance Materials shall be tested prior to disposal to assess the concentration of contaminants present, and requires the prior approval of the Office of Environmental Health and Pollution Regulation.</p> <p>Other Guidance This typically covers spoil contaminated by hydrocarbons. Spoil with high levels of contamination may require remediation prior to disposal.</p>	
1.4 Green Waste	<p>What is included? Compostable garden, park, and horticultural waste, including grass cuttings, hedge trimmings, branches and tree stumps.</p> <p>Green waste loads containing general waste or materials that render it non-compostable will be charged at the Standard Rate, and green waste mixed with waste containing quantities of contaminants that could reasonably be segregated or recycled will be charged at the Contamination Rate.</p> <p>Other guidance Noxious weeds and invasive species such as Japanese Knotweed (including root structure in soil), animal manure/bedding, bamboo, pampas grass, and specified fruit (i.e. tomatoes, peppers, etc.) will be charged at the Green Waste rate, but will be diverted to the tipping face.</p> <p><i>(Route for private householder users only: Chouet Horticultural Site (excluding noxious weeds, invasive species such as Japanese</i></p>	<p>Commercial Green Waste Rate at Mont Cuet. 2016: £33.03/t, subject to a minimum charge of £5 per weighed load.</p>

Waste Category/Description	Guidance on waste included etc. and specified conditions for acceptance	Charge Rate (see Appendices 1 & 2)
	<i>Knotweed, animal bedding, and food waste)).</i>	
1.5 Mixed Household Waste – Private Householder Deliveries	<p>What is included? Small amounts of ‘Black Bag’ and bulky waste delivered by private householders to the Mont Cuet Civic Amenity Facility (General Waste).</p> <p>The charge is based on a standard bin sack (of 100 litres capacity), and non-bagged and oversize bagged waste is charged at a rate based on the volume equivalent to an 100 litre standard bin sack, up to a maximum of ten bin sacks. A guide list of standard charges, based on this formula, for specific items is provided as Appendix 6. Specific charges, however, will depend on the volume or particular loads.</p> <p>Larger volumes of household waste (in excess of 10 bin sacks or equivalent) shall be weighed over the weighbridge and directed to the tipping face (where appropriate), and charged at the appropriate rate for the waste category.</p>	<p>Private Householder Waste Rate. 2016: £2/bag (or equivalent receptacle/volume)</p>
1.6 Incinerator Ash	<p>What is included? Bottom ash from the incineration of waste materials.</p> <p>Bottom Ash from either the PEH Clinical Incinerator or the Cattle Incinerator at Longue Hougue.</p> <p>Excludes Fly Ash/Air Pollution Control residues, which are classified as a Specially Controlled Waste.</p>	<p>Standard Rate for Mont Cuet Landfill Site. 2016: £191.53/t, subject to a minimum charge of £10 per weighed load.</p>
1.7 Waste arising from street and gully cleaning, and pumping station wet-well and grit tank cleansing	<p>What is included? Road sweepings, gully sludges and other waste arising from street cleaning activities, and pumping station wet-well and sewage emptying point grit tank cleansing.</p> <p>Excludes Belle Greve Pumping Station Grit, which is pre-washed and disposed of as Inert Waste.</p>	<p>Commercial Green Waste Rate at Mont Cuet. 2016: £33.03/t, subject to a minimum charge of £10 per weighed load.</p>
1.8 Pumping Station Screenings	<p>What is included? Waste water treatment screenings.</p> <p>This includes screenings from Belle Greve Pumping Station</p>	<p>Standard Rate for Mont Cuet Landfill Site. 2016: £191.53/t</p>
1.9 Potable Water Treatment Sludges	<p>What is included? Potable water treatment sludges</p>	<p>Standard Rate for Mont Cuet Landfill Site.</p>

Waste Category/Description	Guidance on waste included etc. and specified conditions for acceptance	Charge Rate (see Appendices 1 & 2)
	Sludges resulting from potable water treatment processes	2016: £191.53/t, subject to a minimum charge of £10 per weighed load.
1.10 Animals	<p>What is included?</p> <p>Animal carcasses.</p> <p>Any animal carcasses that cannot be disposed of at the Cattle Incinerator.</p>	<p>Specially Controlled Waste Rate.</p> <p>2016: £382.55/t, subject to a minimum charge of £10 per weighed load.</p>
1.11 Blended Cover Material	<p>What is included?</p> <p>Fine inert material (e.g. soil) mixed with waste wood shredded to a maximum of 25mm, at a volume ratio of 6 parts inert material/soil, 1 part shredded wood.</p>	<p>Blended Cover Material rate at Mont Cuet.</p> <p>2016: £11.50/t</p>
1.12 Reload Cover Material	<p>What is the charge for?</p> <p>The reloading of a load that does not meet the required specification for cover material (see Appendix 7 – Glossary).</p>	<p>Reload Charge Rate: £69.21 per reload</p>
1.13 Weigh Only	<p>What is the charge for?</p> <p>An administrative service charge for the weighing of vehicles and materials using WDA equipment on site.</p>	<p>Weigh Only Charge: £5 per weigh</p>

2. Longue Hougue Land Reclamation Site

Waste Category	Guidance on waste included etc. and specified conditions for acceptance	Charge Rate (see Appendices 1 & 2)
2.1 Household Waste or Commercial Waste, or a mixture of such waste, which is Inert Waste, excluding specific categories below.	<p>What is included? Household Waste or Commercial Waste, or a mixture of such waste, which is Inert Waste, as defined in the Waste Disposal and Recovery Charges Regulations, 2015.</p> <p>Inert Waste is defined in the Glossary (Appendix 7) and includes waste which does not undergo any significant physical, chemical or biological transformation following disposal.</p> <p>Inert wastes normally include soil, stone, hardcore, gravel, sand, non-recyclable glass, concrete and ceramics.</p> <p>Condition of Acceptance. Inert wastes must be substantially free of non-inert items/materials, and soil must be substantially free of vegetation.</p> <p>Inert wastes containing asbestos may be classified as ‘Non-hazardous Asbestos Waste Containing Material’ provided the asbestos content of the waste is <0.1%. This is accepted at Longue Hougue Reclamation Site, accompanied by a Certificate of Analysis from testing conducted by the Guernsey Health and Safety Executive (HSE), and approved by the OEHPR.</p>	<p>Standard Rate for Longue Hougue Land Reclamation Site. 2016: £15.67/t, subject to a minimum charge of £5 per weighed load.</p>
2.2 Soil with turf/vegetation	<p>What is included? Top soil containing turf and other vegetation.</p> <p>Top Soil may be delivered to Longue Hougue Reclamation Site for stockpiling and processing as re-useable top soil.</p> <p>Top soil containing root structures of noxious weeds and invasive species such as Japanese Knotweed is not accepted and should be disposed of at Mont Cuet Landfill Site, charged at the Green Waste rate.</p>	<p>Soil with Turf/ Vegetation Rate. 2016: £71.73/t, subject to a minimum charge of £5 per weighed load.</p>
2.3 Reload	<p>What is the charge for? The reloading of a load that does not fall within the required description for mixed Household and Commercial Inert Waste or soil with turf/vegetation.</p>	<p>Reload Charge Rate: £20.14 per reload</p>

Waste Category	Guidance on waste included etc. and specified conditions for acceptance	Charge Rate (see Appendices 1 & 2)
2.4 Weigh Only	What is the charge for? An administrative service charge for the weighing of vehicles and materials using WDA equipment on site.	Weigh Only Charge: £5 per weigh

3. Fontaine Vinery Waste Segregation Facility

Waste Category	Guidance on waste included etc. and specified conditions for acceptance.	Charge Rate (see Appendices 1 & 2)
3.1 Mixed Household Waste and Commercial Waste, excluding 'Black Bag' waste and Specially Controlled Wastes, and not falling within the categories below.	<p>What is included? Household Waste or Commercial Waste or a mixture of such waste, excluding putrescible waste, 'Black Bag' waste or Specially Controlled Waste.</p> <p>Household Waste or Commercial Waste, delivered by commercial operators/contractors licensed to carry waste, charged by weight, based on the net tonnage of the load.</p>	<p>Standard Rate for Fontaine Vinery Waste Segregation Site. 2016: £191.53/t, subject to a minimum charge of £10 per weighed load.</p>
3.2 Commercial Dry Recyclables	<p>What is included? Dry recyclables collected from commercial premises by commercial contractors.</p> <p>Segregated or mixed loads of tins/cans, plastic bottles tubs and trays, and/or glass bottles.</p> <p>Condition of Acceptance. Loads should be substantially free of other dry recyclables (e.g. paper, cardboard) and waste materials.</p> <p>Excludes Dry Recyclables collected by or on behalf of the Parishes.</p>	<p>Commercial Dry Recyclables Rate. 2016: £40.00/t</p>
3.3 Parish Segregated Dry Recyclables	<p>What is included? Dry recyclables collected from households and delivered to site by commercial contractors on behalf of the Parish Douzaines.</p> <p>Segregated or mixed loads of tins/cans, plastic bottles tubs and trays, and/or glass bottles, and other dry recyclables (e.g. paper, cardboard).</p> <p>Condition of Acceptance. Loads should be substantially free of waste materials. Glass will only be accepted segregated from other recyclables, and paper and cardboard may be mixed together but shall be segregated from other recyclables</p>	<p>Parish Dry Recyclable Rate 2016: £1.00/t</p>

Waste Category	Guidance on waste included etc. and specified conditions for acceptance.	Charge Rate (see Appendices 1 & 2)
3.4 Business Domestic	<p>What is included? Dry Recyclables which are commercial waste but not directly related to the main business activity of a commercial operation, generated by staff at a business premises, e.g. kitchen recyclables.</p> <p>Conditions of Acceptance The business must be an account holder at La Fontaine and delivered to the site on behalf of the account holder.</p> <p>Dry Recyclables will only be accepted in a form that enables the delivery driver to segregate the waste into individual containers provided for Glass, Plastic Bottles Tubs and Trays, Paper, Cardboard, and Tins/Cans.</p> <p>Waste will not be charged unless the amount exceeds £5 per month (i.e. charge imposed on amounts over 0.125kg per month and based on the standard charge of £40/tonne).</p>	<p>Business Domestic Charge Rate: up to 0.125t/month – Free. For volumes >0.125t/month the Commercial Dry Recyclables Rate applies. 2016: £40.00/t</p>
3.5 Reload	<p>What is the charge for? The reloading of a load that does not fall within the required description of waste for the above waste categories accepted at the relevant licensed facility.</p>	<p>Reload Charge Rate: £69.21 per reload</p>
3.6 Weigh Only	<p>What is the charge for? An administrative service charge for the weighing of vehicles and materials using WDA equipment on site.</p>	<p>Weigh Only Charge: £5 per weigh</p>

4. La Hure Mare, States Works

Waste Category	Definition, Description and Exemptions	Charge Rate (see Appendices 1 & 2)
4.1 Expanded Polystyrene (EPS).	<p>What is included? Expanded Polystyrene (EPS) packaging, normally indicated by a number 6 within a recycling triangle.</p> <p>Excludes any food and drink containers, loose-fill packaging peanuts, and beads. <i>(Route for private householder users only: Longue Hougue Recycling Facility, selected bring banks)</i></p> <p>Condition of Acceptance. Acceptance at La Hure Mare requires advance payment at one of the States of Guernsey waste facility weighbridges, with EPS accepted at La Hure Mare on presentation of the weighbridge ticket as proof of payment.</p>	EPS Charge Rate: 2016: £10 per load.

This guidance is issued by the Waste Disposal Authority to provide guidance in relation to the charges payable in relation to the acceptance of waste at public waste management sites. It represents the Authority's interpretation of the Waste Disposal and Recovery Charges Regulations, 2015 and is not intended to be exhaustive or a substitute for the Regulations, copies of which are available from the Greffe. Electronic copies are also available at www.guernseylegalresources.gg. Substantive queries concerning the Regulations should be addressed to the Authority by telephone on 01481 231200.

The Authority does not accept any liability for loss or expense arising out of the provision of, or reliance on, any advice in this Guidance. You are recommended to seek advice from an independent professional advisor where appropriate.

This guidance was last updated on 17th December, 2015 and reflects the relevant legislation in force as at 1st January, 2016.

APPENDIX 1 SUMMARY OF WASTE DISPOSAL SITES & CHARGES, 2016

SITES RESERVED FOR DISPOSAL OR RECOVERY OF PARTICULAR TYPES OF WASTE

1. Mont Cuet Landfill Site. Opening hours Mon – Fri: 07:00 – 16:00, Sat: 07:00 – 10:00

Household and Commercial waste, or a mixture of such wastes, including wastes with no alternative disposal or recycling route, such as litter etc., and commercial green waste for composting. Some Specially Controlled Wastes are also disposed of at Mont Cuet, including asbestos, contaminated spoil and chemicals. Specific arrangements are required for the disposal of these specially controlled wastes.

In order to preserve void space at Mont Cuet Landfill Site and encourage recycling, certain items/materials should not be included in loads delivered to Mont Cuet Landfill Site. Loads containing these items/materials are classified as ‘Contaminated’, with a higher charge applied. No loads will be reloaded after tipping at Mont Cuet.

2. Longue Hougue Reclamation Site: Opening hours Mon – Fri: 07:30 – 16:45, Sat: 07:00 – 10:00

Inert Waste, substantially free of vegetation (<1%). Top soil with turf/vegetation is also accepted for stockpiling and processing.

3. Chouet Horticultural Site: Opening hours Mon – Fri: 07:00 – 16:00, Sat/Sun: 08:00 – 17:00

Non-commercial green waste. Free disposal to private householder deliveries.

4. Fontaine Vinery Waste Segregation Facility: Opening hours Mon – Fri: 09:00 – 15:00,

Mixed loads of commercial waste, household waste or a mixture of the same not containing putrescible or Specially Controlled Waste. Segregated commercial loads of recyclables (Glass, Tins/Cans, and Plastic Bottles, NOT cardboard and paper) and excluding Parish recyclables. Such waste delivered by or on behalf of Parishes may include paper and cardboard. Cash is NOT accepted at this site.

5. States Works, La Hure Mare: Opening hours Mon – Fri: 07:00 – 16:00

Commercial deliveries of Expanded Polystyrene (EPS), clean and dry. A ticket must first be obtained from one of the States Waste weighbridges. EPS food and drink containers and packaging peanuts are not accepted.

IMPORTANT CUSTOMER NOTICE

Cheque payments are NOT accepted at any of the Waste Disposal Authority's public waste management sites. Conditions of Acceptance of waste are included in the “Waste Disposal And Recycling Sites - Charging Guidance And Conditions For Acceptance, 2016”, document available on www.gov.gg.

WASTE DISPOSAL & RECYCLING CHARGES (Applicable from 1 January 2016):

<u>Mont Cuet:</u>	<u>2016</u>	<u>2015</u>
Standard Rate	£191.53/tonne	£171.78/tonne
Contamination Rate	£287.36/tonne	£257.72/tonne
Commercial Green Waste:	£33.03/tonne	£29.62/tonne
Bonded Asbestos	£191.53/tonne	£171.78/tonne
Specially Controlled Waste	£382.55/tonne	£343.09/tonne
Private Householder Waste	£2 per bag/equivalent	£2 per bag

Longue Hougue:

Standard Rate	£15.67/tonne	£14.05/tonne
Soil with turf/vegetation	£71.73/tonne	£64.33/tonne
Reload Charge	£20.14	£18.06

Waste Segregation Facility:

Standard Rate	£191.53/tonne	£171.78/tonne
Commercial Recyclables	£40.00/tonne	£40.00/tonne
Reload Charge	£69.21	£62.07
Business ‘Domestic’	Free*	Free*

* The business must be an account holder at La Fontaine, but will not be charged unless the amount exceeds £5 per month (based on the standard charge of £40/tonne) (i.e. amounts over 0.125kg per month).

States Works, La Hure Mare

Commercial quantities of Polystyrene	£10.00	£10.00
--------------------------------------	--------	--------

Minimum Charges⁴

Green & Inert Waste (uncontaminated):	£5.00	£5.00
All Other Wastes:	£10.00	£10.00

⁴ Minimum charges apply to all weighed loads with the exception of commercial (including Parish) recyclables delivered to Fontaine Vinery Waste Segregation & Recycling Facility

APPENDIX 2 WEIGHBRIDGE AND CHARGE CATEGORIES FOR EACH SITE

This Appendix shows the charging categories as detailed on the weighbridge systems at the Authority's designated waste management sites for all types of waste falling within the particular descriptions of waste; for detailed guidance as to the relevant descriptions of waste and charges please refer to the main body of the document.

<u>MONT CUET</u>	Weighbridge Category	
Charge Category	Short Form	Long Description
Standard Rate (Mont Cuet) (£191.53/t)	BBFTL BW CL FRAG IC INDC NRCARD NRPAPER PHH PW	Bring Bank Fly Tipping Litter Builders Waste Coastal Litter Bin Contract 'Frag' Waste From Guernsey Recycling Industrial/Commercial Industrial Commercial Compacted Non-Recyclable Cardboard Non-Recyclable Paper Private Householders – Commercial Deliveries Parish Waste
Contamination Rate (£287.36/t)	[ASBONDC BWC CLC ICC INDCC PHHC PWC	Asbestos (Bonded) Contaminated] Builders Waste – Contaminated Coastal Litter – Contaminated Industrial/Commercial Contaminated Industrial Commercial Compacted Contaminated Private Householders – Contaminated Parish Waste – Contaminated
Bonded Asbestos (£191.53/t)	ASBOND	Asbestos (Bonded)
Specially Controlled Waste (£382.55/t)	ASBS CHEM CONTSOIL	Fibrous Asbestos (Special) Chemicals Contaminated Soil
Commercial Green Waste (£33.03/t)	COMMGW	Commercial Green Waste – MC
Mixed Household Waste (£2/bag or equivalent)	BAGS	Bags and Household Deliveries
Waste arising from street and gully cleaning, and wet-well and grit tank cleansing (£33.03/t)	SGS STREETCL	Sewage & Gully Sludges Street Cleaning
Waste Water Treatment Screenings (£191.53/t)	BGRAGS	Belle Greve Rags
Potable Water Treatment Sludges (£191.53/t)	WTS	Water Treatment Sludge
Animal	ANI	Animals

Carcasses (£382.55/t)		
Incinerator Ash (£191.53/t)	ASH	Incinerator Ash
Blended Cover Material (£11.50/t)	BLENCOV	Blended Cover
Expanded Polystyrene (EPS) (£10/load)	EPSCOMM	Polystyrene – Commercial ⁵
Reload Cover Material (£69.21/reload)	RECOV	Reload Cover Material

<u>LONGUE HOUGUE</u>	Weighbridge Category	
Charge Category	Short Form	Long Description
Standard Rate (Longue Hougue) (£15.67/t)	ASNH BGGRIT BW GLASS ICLH	Asbestos Non-Hazardous Belle Greve Grit Builders Waste Non-recyclable Glass Industrial/Commercial Longue Hougue
Top Soil with Vegetation (£71.73/t)	TOPSOIL	Top Soil with Vegetation.
Reload (£20.14/reload)	RELOAD	Reload Charge
Expanded Polystyrene (EPS) (£10/load)	EPSCOMM	Polystyrene – Commercial ⁵

<u>FONTAINE VINERY</u>	Weighbridge Category	
Charge Category	Short Form	Long Description
Standard Rate (Fontaine Vinery) (£191.53/t)	BBFTL BW IC PHH	Bring Bank Fly Tipping Litter Builders Waste Industrial/Commercial Private Householders – Commercial Deliveries
Commercial Dry Recyclables (non Parish) (£40.00/t)	COMMIXED COMTINS COMGLASS	Commercial deliveries – Mixed Recyclables Commercial deliveries – Tins Commercial deliveries – Glass
Parish Segregated Dry Recyclables (£1.00/t)	PWRE	Parish Recyclables
Reload (£69.21/reload)	RELOAD	Reload Charge
Expanded Polystyrene (EPS) (£10/load)	EPSCOMM	Polystyrene – Commercial ⁵

⁵ Expanded Polystyrene is not accepted at Mont Cuét, Longue Hougue or Fontaine Vinery, but charges are applied at the weighbridges at these sites prior to delivery to La Hure Mare for recycling.

MINIMUM CHARGES

(Minimum charges apply to all weighed loads with the exception of commercial (including Parish) recyclables delivered to Fontaine Vinery Waste Segregation Facility)

Waste Type	Charge
Green and Inert Waste (uncontaminated)	£5.00
All Other Wastes	£10.00

The use of the weighbridges for weighing vehicles/loads is available to both commercial and private users (commercial only at Fontaine Vinery). A commercial ‘Weigh Only’ Charge of £5 is applied for this facility.

APPENDIX 3 GENERAL PRINCIPLES FOR APPLYING CONTAMINATION CHARGES AT MONT CUET LANDFILL SITE

The principle behind the charging of contaminated loads is to reduce the volume of waste delivered to Mont Cuet, thereby diverting waste from landfill to more appropriate recycling or land reclamation alternatives.

A Contaminated Load is a mixed waste load that contains Specially Controlled Waste, inert waste and/or items or materials that have an alternative recycling or disposal route.

The 'Contamination Rate' is applied to mixed waste loads which contain quantities of contaminants (as defined in the Waste Disposal and Recovery Charges Regulations, 2015) that can reasonably be segregated or recycled.

Each load received at Mont Cuet Landfill Site is assessed by the landfill site operator. A load is classified as contaminated if the amount of the specified items or materials within the mixed load is sufficient to render the load contaminated in accordance with the legislation.

The load shall be classed as contaminated if it is clear that the specified items/materials could reasonably have been separated from the other waste and diverted to alternative recycling or disposal routes.

Where a contaminated load is identified on the weighbridge the waste carrier shall be offered the opportunity by the weighbridge operator to leave the site and deliver the waste to the most appropriate waste or recycling facility.

Minor amounts of cardboard, plastic, paper, etc. would not render a load as contaminated. Similarly, materials that ordinarily could be recycled but are contaminated by food wastes or other 'contaminants', rendering them un-recyclable, would not be classed as contaminated; however, the disposal of loads of cardboard, paper or clear plastic film contaminated or spoiled prior to, or during collection, will only be accepted by prior approval of the Waste Disposal Authority.

The decision to classify a load as contaminated, in accordance with the legislation, is made by the landfill operators, who are trained to identify such loads. Loads classified as contaminated shall be photographed with the date and time indicated on the photograph. Where practical the photograph should include the vehicle depositing the contaminated load. The reason for the contamination charge should be entered in the comments box on the weighbridge ticket.

Objections against a contaminated load charge should be directed in writing to the Waste Disposal Authority.

APPENDIX 4 WASTE ELECTRICAL AND ELECTRONIC EQUIPMENT (WEEE)

Categories of WEEE are defined in the European Waste Electrical and Electronic Equipment (WEEE) Directive 2012/19/EU. Annex 1 and 2 are reproduced below for convenience. These Annexes will be replaced by Annex 3 and 4 of the Directive from 15 August 2018.

ANNEX 1

Categories of EEE covered by the Directive (valid until 15/08/18)

1. Large household appliances
2. Small household appliances
3. IT and telecommunications equipment
4. Consumer equipment
5. Lighting equipment
6. Electrical and electronic tools (with the exception of large-scale stationary industrial tools)
7. Toys, leisure and sports equipment
8. Medical devices (with the exception of all implanted and infected products)
9. Monitoring and control instruments
10. Automatic dispensers

ANNEX 2

Indicative list of EEE which falls within the categories of Annex 1

1. Large household appliances
 - Large cooling appliances
 - Refrigerators
 - Freezers
 - Other large appliances used for refrigeration, conservation and storage of food
 - Washing machines
 - Clothes dryers
 - Dish washing machines
 - Cookers
 - Electric stoves
 - Electric hot plates
 - Microwaves
 - Other large appliances used for cooking and other processing of food
 - Electric heating appliances
 - Electric radiators
 - Other large appliances for heating rooms, beds, seating furniture
 - Electric fans
 - Air conditioner appliances
 - Other fanning, exhaust ventilation and conditioning equipment
2. Small household appliances (**Exempt from Contamination Charges**)
 - Vacuum cleaners
 - Carpet sweepers
 - Other appliances for cleaning
 - Appliances used for sewing, knitting, weaving and other processing for textiles
 - Irons and other appliances for ironing, mangling and other care of clothing

- Toasters
- Fryers
- Grinders, coffee machines and equipment for opening or sealing containers or packages
- Electric knives
- Appliances for hair-cutting, hair drying, tooth brushing, shaving, massage and other body care appliances
- Clocks, watches and equipment for the purpose of measuring, indicating or registering time
- Scales

3. IT and telecommunications equipment
 - Centralised data processing:
 - Mainframes
 - Minicomputers
 - Printer units
 - Personal computing:
 - Personal computers (CPU, mouse, screen and keyboard included)
 - Laptop computers (CPU, mouse, screen and keyboard included)
 - Notebook computers
 - Notepad computers
 - Printers
 - Copying equipment
 - Electrical and electronic typewriters
 - Pocket and desk calculators (**Exempt from Contamination Charges**)
 - Other products and equipment for the collection, storage, processing, presentation or communication of information by electronic means
 - User terminals and systems
 - Facsimile
 - Telex
 - Telephones (**Exempt from Contamination Charges**)
 - Pay telephones
 - Cordless telephones (**Exempt from Contamination Charges**)
 - Cellular telephones (**Exempt from Contamination Charges**)
 - Answering systems (**Exempt from Contamination Charges**)
 - Other products or equipment of transmitting sound, images or other information by Telecommunications
4. Consumer equipment
 - Radio sets (**Exempt from Contamination Charges**)
 - Television sets
 - Video cameras (**Small video cameras Exempt from Contamination Charges**)
 - Video recorders
 - Hi-fi recorders
 - Audio amplifiers
 - Musical instruments
 - Other products or equipment for the purpose of recording or reproducing sound or images, including signals or other technologies for the distribution of sound and image than by telecommunications.
5. Lighting equipment
 - Luminaires for fluorescent lamps with the exception of luminaires in households
 - Straight fluorescent lamps
 - Compact fluorescent lamps
 - High intensity discharge lamps, including pressure sodium lamps and metal halide lamps
 - Low pressure sodium lamps

Other lighting or equipment for the purpose of spreading or controlling light
with the exception of filament bulbs.

6. Electrical and electronic tools (with the exception of large-scale stationary industrial tools) **(Small items are exempt from Contamination Charges)**
 - Drills
 - Saws
 - Sewing machines
 - Equipment for turning, milling, sanding, grinding, sawing, cutting, shearing, drilling, making holes, punching, folding, bending or similar processing of wood, metal and other materials
 - Tools for riveting, nailing or screwing or removing rivets, nails, screws or similar uses
 - Tools for welding, soldering or similar use
 - Equipment for spraying, spreading, dispersing or other treatment of liquid or gaseous substances by other means
 - Tools for mowing or other gardening activities.
7. Toys, leisure and sports equipment **(Small items are exempt from Contamination Charges)**
 - Electric trains or car racing sets
 - Hand-held video game consoles
 - Video games
 - Computers for biking, diving, running and rowing
 - Sports equipment with electric or electronic components
 - Coin slot machines
8. Medical devices **(with the exception of all implanted and infected products)**
 - Radiotherapy equipment
 - Cardiology
 - Dialysis
 - Pulmonary ventilators
 - Nuclear medicine
 - Laboratory equipment for *in-vitro* diagnosis
 - Analysers
 - Freezers
 - Fertilization tests
 - Other appliances for detecting, preventing, monitoring, treating, alleviating illness, injury or disability.
9. Monitoring and control instruments **(Small items are exempt from Contamination Charges)**
 - Smoke detector
 - Heating regulators
 - Thermostats
 - Measuring, weighing or adjusting appliances for household or laboratory equipment
 - Other monitoring and control instruments used in industrial installations (for example, in control panels)
10. Automatic dispensers
 - Automatic dispensers for hot drinks
 - Automatic dispensers for hot or cold bottles or cans
 - Automatic dispensers for solid products
 - Automatic dispensers for money
 - All appliances which deliver automatically all kind of products

**APPENDIX 5 CHEMICALS CLASSED AS SPECIALLY
CONTROLLED WASTES AND NOT SUITABLE FOR
DISPOSAL AT MONT CUET**

Red List Compounds not Suitable for Co- Disposal into Landfill

Organochlorines	Polychlorinated Biphenyl's (PCB's)
	Hexachlorocyclohexane (HCH) Gamma (Lindane)
	Isomers of HCH
	Hexachlorobenzene
	Aldrin
	Endrin
	Dieldrin
	Isodrin
	Endosulphane (Alpha and Beta)
	DDT / DDE / DDD
	Pentachlorophenol (PCP's)
	Hexachlorobutadiene (HCBd)
	Trichlorobenzene
	Chloroform
	Dichloroethane
	Carbon Tetrachloride
Organophosphates	Azinphos-Methyl
	Trifluralin
Triazines	Atrazine
	Simazine
Other Substances	Tributyltin
	Triphenyltin
	Mercury and its compounds
	Cadmium and its compounds

APPENDIX 6**MONT CUET – GUIDE CHARGES FOR SPECIFIC
ITEMS AND UN-BAGGED (MIXED HOUSEHOLD
WASTE – PRIVATE HOUSEHOLD DELIVERIES)**

Item/Materials	Indicative Charge
Standard Charge:	
Black Sacks/Bags (100 litre) or equivalent	£2.00 per bag or equivalent (up to maximum of 10 bags or equivalent)
Beds/Bedding:	
Cot Mattress	£4.00
Single Mattress	£6.00
Single Bed Base	£4.00
Double Mattress	£12.00
Double Bed Base	£10.00
Furniture:	
Single Armchair	£4.00
2 Seater Settee	£8.00 - £10.00
3 Seater Settee	£10.00 - £12.00
Un-bagged Waste:	
Average Car Boot	£10.00
Large Car Boot	£16.00
Average Car Full	£20.00
Small Trailer	£10.00
Midi Trailer	£16.00
Medium Trailer	Weigh Load
Large Trailer	Weigh Load
Recyclables:	
Cardboard	Free
WEEE	Free
Metal	Free

APPENDIX 7 GLOSSARY OF TERMS USED IN THIS DOCUMENT

Please note some of these terms below are defined in the Waste Disposal and Recovery Charges Regulations, 2015. Whilst this glossary is intended to be consistent with those definitions, the definitions in the Regulations are authoritative.

Term	Definition
Bags	Disposable bags used for the disposal of mixed waste from household or commercial sources. The standard size of a bag is 90 – 110 litres.
‘Black Bag’ Waste	Non-hazardous general mixed waste typically produced in a household or commercial office environment, often referred to as municipal waste (European Waste Catalogue Code: 20-03-01).
Bulky Waste	Non-hazardous general waste items that are too large for disposal via normal Parish collections. <ul style="list-style-type: none"> any article of waste which exceeds 25 kilograms in weight; and/or any article of waste which does not fit, or cannot be fitted into a standard waste disposal bag. Examples include furniture, bicycles, large appliances (‘white goods’), garden furniture, and portable household items. (European Waste Catalogue Code: 20-03-07)
Co-Disposal	The engineered disposal of non-hazardous and certain hazardous wastes within the same site.
Commercial Waste	Commercial Waste means “waste arising from any activity carried on by way of business, and includes agricultural and horticultural waste, other than such waste arising from use of the curtilage of a dwelling house for purposes connected with the use of that dwelling house”. For the purposes of this document and the Waste Disposal and Recovery Charges Regulations, 2015 this is extended to include waste arising from any activity carried on by Departments and Committees of the States, Douzaines, and Non-Profit Organisations.
Contamination Rate	The charge rate per net tonnage of mixed waste applied to loads delivered for disposal at Mont Cuet Landfill Site, where the waste contains such quantities of Specially Controlled Waste, inert waste or materials/items that can be reasonably segregated or recycled (i.e. have a reasonable alternative recycling or disposal route).
Contaminant	Any Specially Controlled Waste in a mixed load of waste for disposal at Mont Cuet Landfill Site, inert waste or items or materials included in a mixed load of waste for disposal at Mont Cuet Landfill Site present in such quantities that can reasonably be segregated or recycled (i.e. have a reasonable alternative recycling or disposal route).
Cover Material	Material used for covering waste at Mont Cuet Landfill Site, as required by the Waste Management Licence for

	<p>the site.</p> <p>Specification: Clean fine inert material (e.g. soil) that is substantially free of stone and odour free. Any stone in the cover material shall be <40mm.</p> <p>Blended Cover is Cover Material mixed with waste wood shredded to a maximum of 25mm, at a volume ratio of 6 parts inert material/soil, 1 part shredded wood.</p>
Frag Waste	<p>Frag Waste, or Fragmentiser Waste, is the waste product resulting from the processing of End-of-Life Vehicles and other metal products for recycling, following the extraction of recyclable metals, also referred to as Shredder Residues. (European Waste Catalogue Code: 16-01-99)</p>
Green Waste	<p>Biodegradable waste composed of garden or park waste from household and commercial sources (including agricultural and horticultural wastes) such as grass cuttings, hedge trimmings, etc. Green Waste also includes large biodegradable wastes that are suitable for composting after being shredded, e.g. tree branches, trucks and stumps. (European Waste Catalogue Code: 20-02-01)</p>
Household Waste	<p>means waste arising from the normal use of a dwelling house as such and does not include commercial waste arising thereon.</p>
Inert Waste	<p>means waste:</p> <ul style="list-style-type: none"> (a) which does not undergo any significant physical, chemical or biological transformations, (b) which does not dissolve, burn or otherwise physically or chemically react, biodegrade or adversely affect other matter with which it comes into contact in a way likely to give rise to environmental pollution, and (c) which has insignificant total leachability and pollutant content and the leachate of which has insignificant ecotoxicity (in particular, not such as to endanger the quality of any water),
Net Tonnage	<p>Charges are applied to weighed loads based on the 'net tonnage' of the load. This is calculated to exclude the weight of the vehicle and/or receptacle holding the waste at the time of delivery, based on pre-recorded vehicle tare weights, or re-weighing vehicles after waste has been deposited as they exit the site where the load has been deposited.</p>
Non-Hazardous Asbestos (NHA)	<p>Non-Hazardous Asbestos Containing Material (NHACM) is Asbestos Containing Material (ACM) containing <0.1% Asbestos.</p>
Specially Controlled Waste	<p>Specially Controlled Waste means any description of waste identified by Ordinance under section 37 of the Environmental Pollution (Guernsey) Law, 2004 as so dangerous or difficult to dispose of that special measures need to be taken in respect of it (See section 26 of the Environmental Pollution (Waste Control and</p>

	Disposal) Ordinance, 2010 and the Waste Control and Disposal (Specially Controlled Waste) Regulations, 2010.
Standard Rate	The charge rate per net tonnage of mixed waste applied to loads delivered for disposal at Waste Disposal Authority public waste management sites.
Tonnes	All references to tonnes and tonnages shall be taken to mean metric tonnes.
Top Soil	The upper layer of soil containing the higher concentrations of organic matter and microorganisms where plant root structures are found.
Waste Electrical and Electronic Equipment (WEEE)	‘Waste electrical and electronic equipment’ or ‘WEEE’ means waste electrical or electronic equipment including all components, sub-assemblies and consumables which are part of the equipment at the time of discarding, falling within Annex 1 to the WEEE Directive 2012/19/EU
