### FUN, FREE AND INFORMATIVE

Educations SHARE nurses can provide mini SRE workshops which can be held outside normal school hours

These workshops of 60-90 minutes are available to all Bailiwick students ages 10-16 who have missed SRE sessions at school or those who just need a little more information.

The workshops are tailor made, age appropriate, fun and informative.

### PARENTS

The SHARE nurses can provide information, lesson material, resources and support.

SRE workshops are also available to parents and those working with young people.

The SHARE nurses are committed to working in partnership with parents and carers. SHARE want local young people to have the knowledge to cope with their changing bodies. Young people must also have the knowledge to make safe, healthy and informed decisions with regards to relationships and sexual health and know where to access help and advice.

Please contact us for more information.
