

How to become more **Disability Aware**

The States in partnership with AccessAble, local disability Charities and disabled people in Guernsey has developed 'Disability Awareness Training' which is easily accessed online and is free for everyone in Guernsey.

The training is made up of six modules, at the end of each module there is a short assessment so you can check what you have learnt. Each module's assessment consists of a series of multiply choice questions and is simply designed to see how you got on with the modules content.

The modules contain the following information:

- Introductory module
- In Types of Impairment 1 you will learn about; mobility, visual, hearing, hidden and multiple impairments.
- In Types of Impairments 2 you will learn about learning disability, learning difficulty, autism and dementia.
- The Practical Advice section provides information on things you can do to assist people with a sight or hearing impairment, mobility impairment, learning disability, mental health issues or an individual with dementia.
- The Language Section explains why using the correct language to describe disability is important and provides some practical tips about using disability related language in conversation.

- The Find Out More About Discrimination module provides information on the situation in Guernsey in preparation for disability discrimination legislation details of the UN Convention on the Rights of People with Disabilities (UNCRPD).
- At the end of the module you can download your certificate.
- To create an account and start the training at www.signpost.gg/training
