A law enforcement purpose is defined within the Law and Ordinance as processing for the purpose of:

Where we are processing special category data for a Law Enforcement process we do so lawfully and in most matters one or more of the following conditions apply:

- The processing is necessary for the controller to exercise any right or power, or perform or comply with any duty, conferred or imposed on the controller by an enactment or otherwise by law.
- The processing is necessary in order to comply with an order or a judgment of a court or tribunal having the force of law in the Bailiwick.

- The processing is necessary for the administration of justice, or the exercise of any function of the Crown, a Law Officer of the Crown, the States or a public committee.

Personal data and special category data used for a law enforcement purpose is collected directly from you and from a variety of sources. Where appropriate, you will be aware that the processing is taking place. The only circumstances in which you will not be made aware are those where to advise you would prejudice the Law Enforcement purpose for which the data is being gathered. Data may be collected from other competent authorities both locally and in the UK, and occasionally from overseas authorities. Members of the public may also provide information for this purpose. Data is shared with others by the service areas of CHA where necessary in order to support the overarching purpose of the CHA. Protocols are observed and information is only shared if there is a lawful basis for doing so.

- The processing is necessary for, the administration of justice, or the exercise of any function of the Crown, a Law Officer of the Crown, the States or a public committee.

The controller will only provide Agilisys with access to your personal data where there is a legitimate and lawful purpose for this access to be given in line with Schedule 2 of the Law and our internal policies and directives.

Your personal data may also be shared with the Scrutiny Management Committee ('SMC') and also the Internal Audit function of the States of Guernsey as may be required for the completion of their relevant functions. Furthermore, any personal data shared with SMC and Internal Audit will be limited and processed in accordance with Sections 5 and 13(b) of the Law.

b. Purpose limitation

Personal data must not be collected except for a specific, explicit and legitimate purpose and, once collected, must not be further processed in a manner incompatible with the purpose for which it was collected.

The controllers acknowledge their responsibility with regards to this data protection principle and therefore the controllers maintain that they will not further process that personal data in a way which is incompatible to its original reason for processing as specified in section 2a, unless they are required to do so by law. The personal data will not be transferred to a recipient in an authorised or an unauthorised jurisdiction (as per the definition within data protection law). In limited circumstances, and when processing for a law enforcement purpose, data may be transferred to an unauthorised jurisdiction. Such transfers are infrequent, appropriate safeguards are applied, and s43 of the Ordinance is followed.

The controllers maintain that they will only process the personal data which is detailed in section 2a, and will not process any further personal data that is not necessary in relation to the original reason for processing personal data as specified in section 2a, unless they are required to do so by law.

d. Accuracy

Personal data processed must be accurate, kept up-to-date (where applicable) and reasonable steps must be taken to ensure that personal data that is inaccurate is erased or corrected without delay.

The controllers will ensure that all personal data that they hold is accurate and kept up-to-date, and any personal data that is inaccurate will be erased or corrected without delay in accordance with the provisions of the Law or Ordinance as applicable.
