

Remuneration

Non-Executive Directors Incorporated Companies

The levels of remuneration for the Chairman and Non-Executive Directors of the **incorporated companies** are reviewed by the States' Trading Supervisory Board every two-years. Remuneration levels are reviewed in line with movements in civil service salaries.

The current levels, effective from 1 April 2017, are as follows:

Company	Chairman	NED
Aurigny Air Services, Guernsey Post, Guernsey Electricity	£14,144	£10,884
Jamesco750 Limited	£4,579	£3,444

The rates for Jamesco are considerably lower, recognising that the workload for its Board is not as intensive or involved as that required at the other three incorporated companies.

The next review point will be 1 April, 2019.

Unincorporated Companies

There is currently no remuneration available to those individuals who act as advisers to the **unincorporated companies**.
