

QUESTIONS PURSUANT TO RULE 11 OF THE RULES OF PROCEDURE

From	Deputy J.A.B. Gollop
To	President, Policy & Resources Committee
Subject	Brexit and External Affairs
Date of questions	27.08.2019
States' Meeting	04.09.2019

Question 1

Since the States Assembly last met we have seen a change of UK Prime Minister, Cabinet personnel and policy framework. Is the Policy and Resources committee on behalf of us all, convinced we are in accord with the evolving political landscape?

Question 2

Are Policy and Resources satisfied we can avoid the worst of port freight delays in either the UK or France in terms of carrying in business as normal?

Question 3

There have been reports on BBC media that there are potentially shortages of some pharmaceutical products. In particular, drugs such as HRT (Hormone Replacement Therapy) for assisting women going through menopausal or pre menopause conditions and symptoms. In conjunction with HSC, is the Committee satisfied that we are prepared for such situations?

Question 4

To surprise in some Guernsey policy making circles, the States of Jersey's experienced Minister for External Relations went public with outline scenarios of both potentially having backup backstop plans for rationing drugs and more curiously, pharmacy opening hours in the event of post Brexit shortages. Have we as an island been sharing in those considerations or evolving a parallel plan as a contingency?
