States of Guernsey – Extant Resolutions

Introduction

The table below captures the Resolutions of the States of Guernsey (as at 3rd March 2020) that do not require any further action as they have either been completed, rescinded (withdrawn), or there was never a direction to complete an action i.e. decisions made by the States.

The total numbers are not necessarily reflective of the volume of work completed, as the scale of the work of some actions is more complex than others. There could also be several dependencies relating to the work that impact how long a Resolution/s takes to complete.
