## **DEVELOPMENT & PLANNING AUTHORITY**

### **THE ISLAND DEVELOPMENT PLAN – FIVE YEAR REVIEW OF THE ISLAND DEVELOPMENT PLAN P.2020/23**

The States are asked to decide:-

III. Whether, after consideration of the Policy Letter of the Development & Planning Authority entitled 'Five Year Review of the Island Development Plan' (dated 10th February, 2020), they are of the opinion:-

1. To note:

- (a) the Annual Monitoring Report 2018, which is Appendix 1 of the Policy Letter attached to these propositions; and
- (b) that the Development & Planning Authority (“D&PA”) has an obligation under the statutory Island Development Plan (“IDP”) to review Housing land supply and Employment land supply within five years of the adoption of the IDP by the States in November 2016 (“the Five Year Review”) and additionally has committed to review Areas of Biodiversity Importance (ABIs).

2. To note that, notwithstanding Proposition 1, the D&PA intends to pause the Five Year Review of the IDP, which cannot in any event now be delivered in the timescale previously proposed, in order to ensure that review of the IDP (“the Review”) focusses on matters which are critical to strategic recovery and will support future States’ priorities to ensure that land use policies do not stand in the way of the States’ recovery strategy (“the Revised States’ Strategies”). This may require the D&PA to adjust the scope and priority of the Review once the Revised States’ Strategies are known, following which the D&PA will return to the States with its proposals for the Review should they differ from those set out in Proposition 3.

3. To direct the D&PA, in consultation with all relevant Committees and stakeholders, to include, as a minimum, within the scope of the Review if the specific reviews align with the Revised States’ Strategies, such specific reviews being:

- (a) Housing land supply and Employment land supply;
- (b) Areas of Biodiversity Importance (ABIs);
- (c) Development Frameworks thresholds and process;
- (d) development of greenfield land and prioritisation of brownfield land for residential purposes in Centres;
- (e) Important Open Land;
- (f) Agriculture Priority Areas giving particular consideration as to:

- (i) the extent to which existing policies relating to Agriculture Priority Areas are effective in encouraging small-scale, sustainable farming projects, and/or whether any revisions may be needed, in order to foster a community in which local growing initiatives (including non-commercial initiatives) are positively supported; and
    - (ii) Whether a separate policy should be drawn up under the IDP, consistent with the principles of any States of Guernsey Climate Change Action Plan, which has the purpose of providing a clear policy gateway to support the development of small-scale, sustainable farming projects both within, and beyond, Agriculture Priority Areas;
  - (g) visitor accommodation,
  - (h) the protection given to the biodiversity interest of such areas as part of the review of the policies affecting ABIs, including policy GP3, giving particular consideration to strengthening the policies so that development on ABIs, in particular building operations, is only allowed where:
    - (i) the biodiversity interest of the area is maintained or enhanced; or
    - (ii) any negative impacts of the development are appropriately and proportionately mitigated.
- as further detailed in Appendix 3 to the Policy Letter.

C. FOSTER  
HER MAJESTY'S DEPUTY GREFFIER
