Dear Sir

Re: Proposed Alteration to Workshop/Stores 1st Floor fenestration at Kings Road
Vinery Dehus Lane, Vale, for Mallandaine Holdings Ltd

Please find enclosed four copies of drawing No. 19-033-02 together with the necessary forms that I submit for your approval.

It is proposed to replace an existing 1st floor timber loft access door with a new white upvc double glazed sliding sash window all within the existing aperture.

As required, I confirm that the new fenestration proposal has been considered with the criteria of IDP GP9. The glazing unit will be thermally efficient to meet the criteria of GTS building regulations.

I trust that this submission for approval will be favourably received and I would be grateful if this minor application could be processed at your earliest opportunity.

Yours faithfully

P C Vaudin
