Dear Sir

### **Government House, The Queen's Road, St Peter Port**

I am pleased to enclose a Planning application to provide a new timber storage shed for garden equipment. To include the excavation and preparation of a sound base.

It is proposed to stain the timber with a natural, water-based finish.

The timber will be FSC certified to ensure it is sustainably sourced and will be purchased off-the-peg from a local supplier.

The base for the shed will consist of reclaimed aggregate and topped off with 20mm 'Alderney chippings'.

Please contact me if anything needs clarification or if you require any ancillary information.

Yours faithfully

**Paul Henney**
