

## Dimensions

Length: 3658 mm (12 feet)  
Width: 3048 mm (10 feet)  
Height: 2438 mm (8 feet) at side  
3048 mm (10 feet) at apex

## Material

Wood studwork frames  
Wood joists  
Plywood floor and walls  
Mineral felt roof over wood slats  
Concrete blocks  
Aggregate

## Design

Rectangular framework of wood joists resting on 6x9 inch concrete blocks to support plywood floor (made from 1220x2240x18mm plywood boards). Concrete blocks resting on a bed of compacted aggregate.

Wood studwork frames to support plywood cladding (made from 1220x2240x9mm plywood boards).

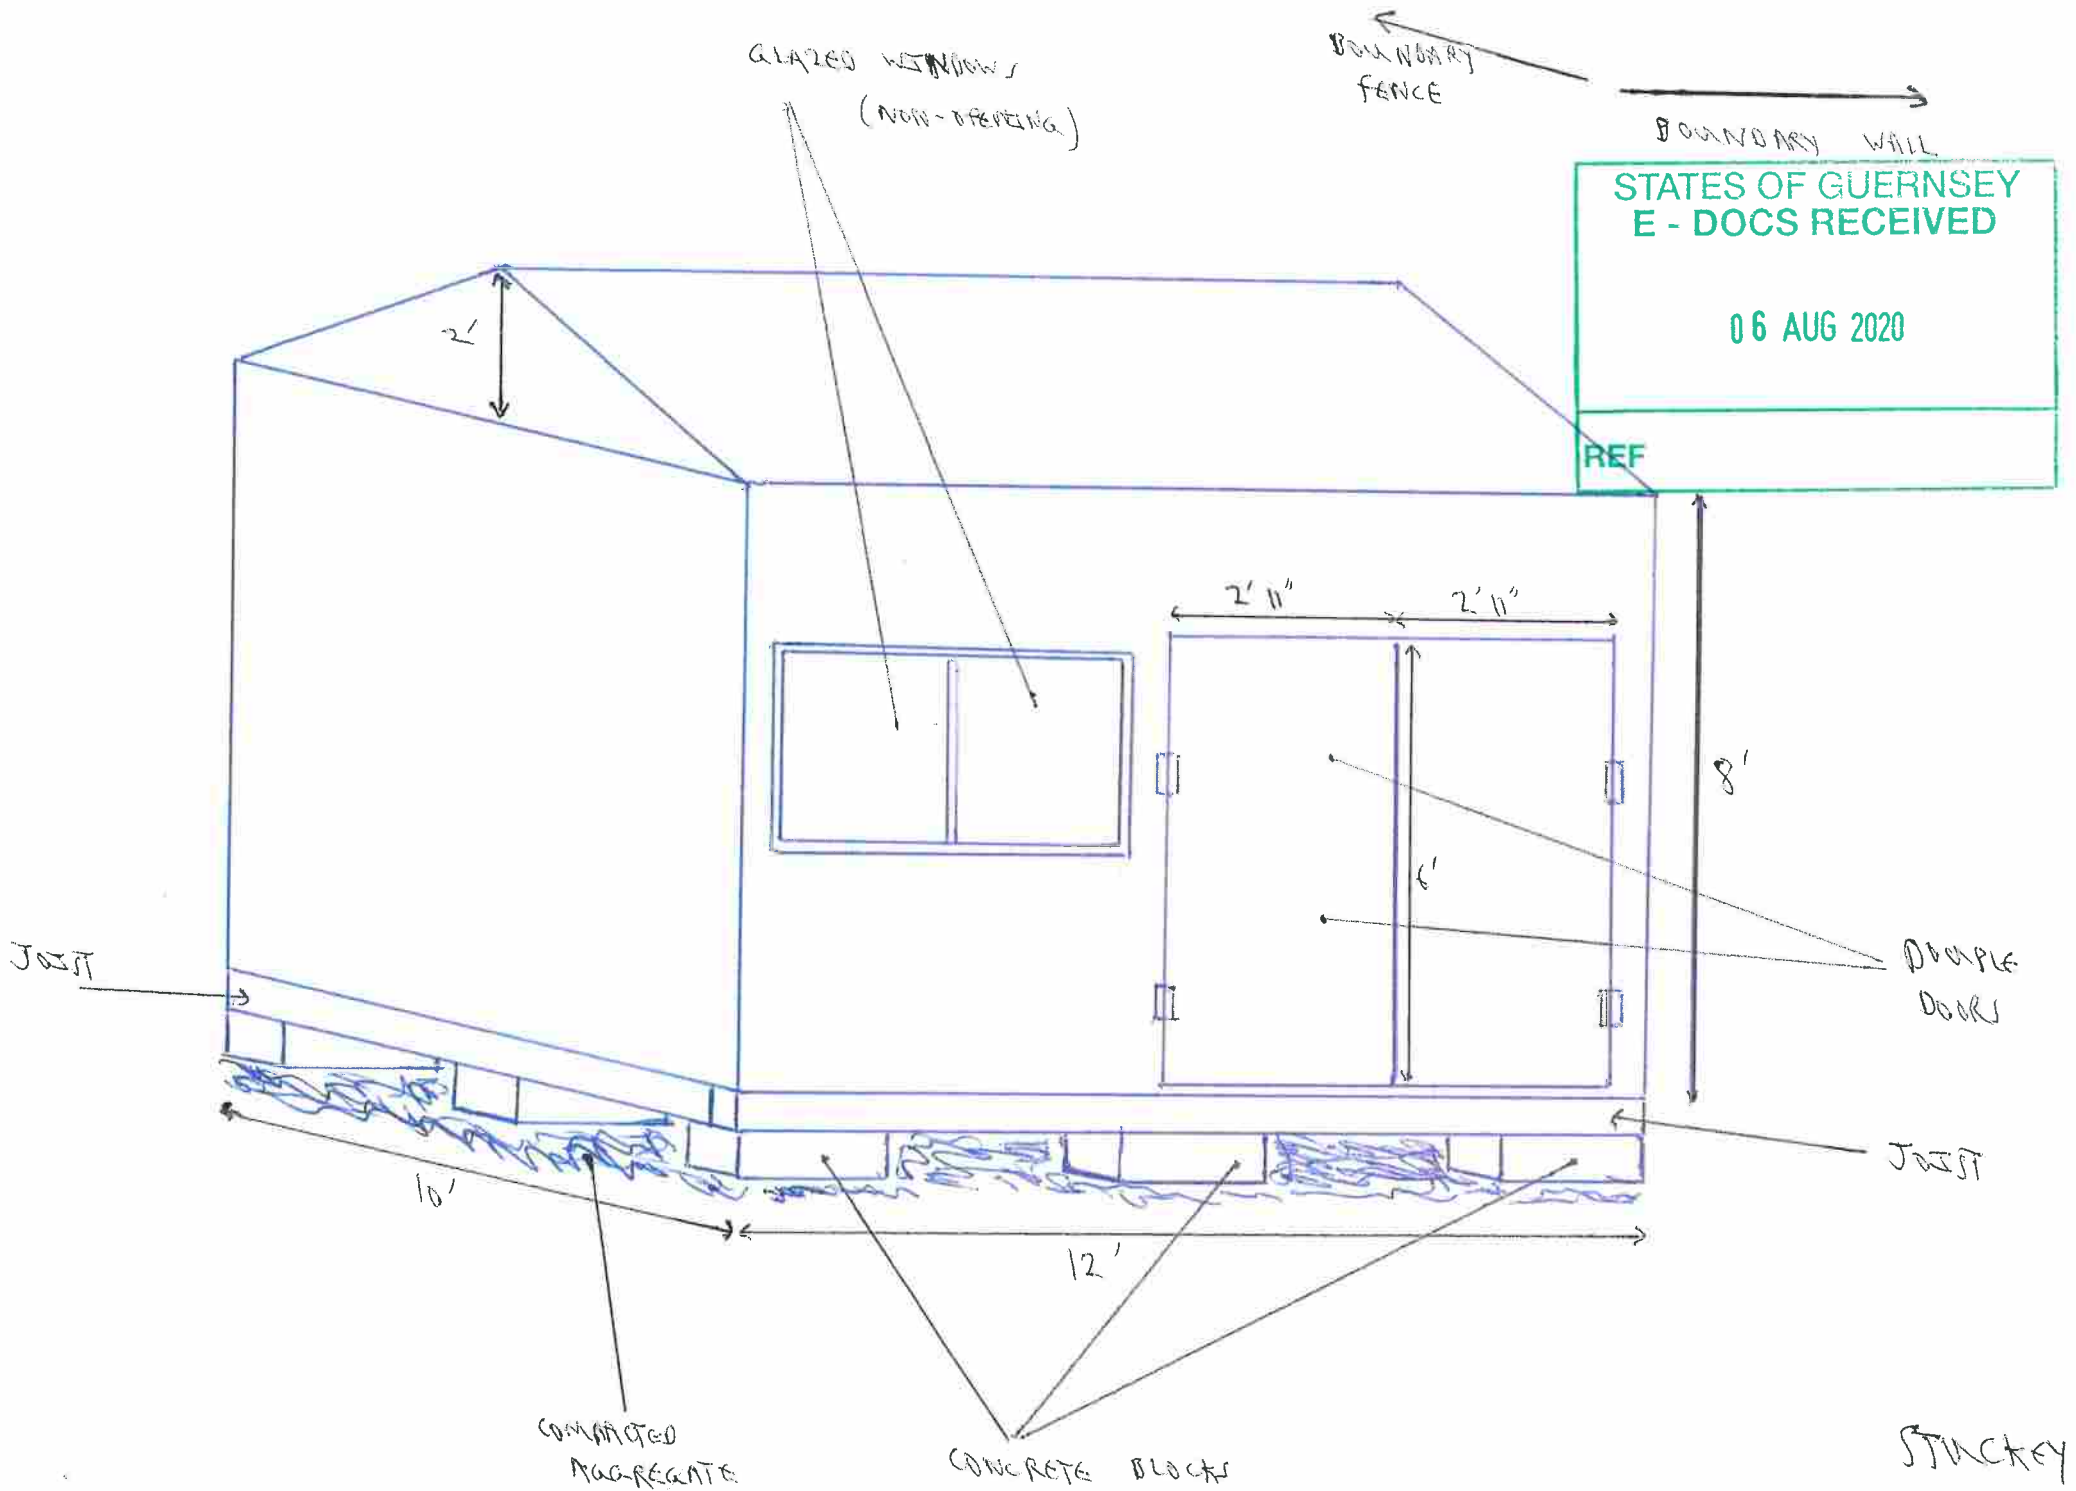

Wood studwork A-frames to support roof of wood slats. Slats covered with mineral felt.

Glazed windows (non-opening).

Wood studwork door frame. Plywood doors.

All wood materials to be treated with preservative before start of construction.
