Robust and versatile, for use with Tongue & Groove Effect Panels, both Brook and Brabourne gates will add privacy to any property.

Supplied in a natural, planed Jakcure® treated finish and constructed using galvanised bolts and stainless steel nails, these gates feature 120mm wide stiles to allow the fitting of optional J-Lock and Latch. Right hand hanging as standard. (Left hand hanging also available). Standard widths: 750mm, 900mm and 1m; wider gates and paired gates are available to special order, please ask for price and details. Standard heights: 1.18m, 1.48m, 1.78m and 1.93m when hung 50mm above the ground for clearance. The capping rail on a Brook gate top matches fence capping rail. Posts for hanging garden gates (see page 48 - 49) unless gate is not in fence run as then we need larger posts.

Special size gates can be made to order subject to size limitations, please ask for a quote and ensure that you allow 10mm each side of the gate for gaps and adjustments.

Gate fittings include heavily galvanised ring latch, adjustable hook and band hinge. The structure (left) of the gate remains the same for the Concave and Convex styles.

Wall Plate, J-Lock & Latch

Please see page 67 for information.

Please note: all standard gates are available in pairs though not displayed in images.

Some timber products will take a while to dry out after the Jakcure® process and natural shrinkage can occur. To prevent unstained timber becoming visible, we recommend not staining products until they have had a prolonged period of dry weather to fully dry out.
