Dear Sirs

REF: Mr Van Katwick application.

I am writing in support of the above application for goat housing (as required by animal welfare regulations) and milking/machinery area.

The Golden Guernsey Goat is a rare breed indigenous to the Island and unique to its heritage. There are only 1200 left in the World and around 80 breeding goats on Guernsey today. Therefore we are delighted to encourage people to keep these goats and preserve the breed.

Yours Faithfully

Peter & Amanda Girard
