

Proportional Response to IDP Policy GP9 – G4544-20 Proposed Extension at Kaikala, La Petite Cloture, Castel

The project is to erect a new sunroom extension which is to be incorporated into the existing dwelling on site.

The site is not within close proximity of any protected buildings or monuments. Due to the distance which the development is to be from the highway, as well as large hedging which will conceal it from the road, the development will not have an adverse effect on any of its surroundings or neighbouring properties.

A waste management plan is not required due to the size of the development.
