

Proposed Radio Base Site, at Saumarez Reservoir.

Ruette De la Tour,
Castel,
Guernsey. GY5 7TR.

Cadastre Number: **D01921F000**

1st September 2020.

Dear Mr Rowles,

Please find our application to install a wooden clad mast & support cabinet.

Executive Summary;

Recovery & re-deployment of wooden clad pole & radio cabinet.

Primarily to;

- Improve & provide all aspects of mobile telephony services, indoor & outdoor around Cobo, Grande Rocque & Port Soif areas.
- Improve the network & customer demand for future services, such as 4G & mobile Broadband, including mobile wifi for the many businesses, residents in these areas.
- This site does NOT support 5G.
- Relocate an existing site rather than build another in the area.

Structure & Accommodation;

Three antenna to be installed on an existing 10m wooden clad mono-pole, to be relocated at Ruette De La Tour.

1 x Radio Support cabinet sited on concrete pad.

Antenna can be colour coded/painted for minimal visual impact if required.

Summary;

The proposed mobile base site, if approved, will enable Sure to **remove** an existing base site at the Guernsey Indoor Bowls & Cricket Centre, Route de la Houge de Pommier & relocate it to an improved geographical location.

Your's faithfully,

A handwritten signature in black ink, appearing to read 'Adi Byrne', with a long horizontal flourish extending to the right.

Adi Byrne.
Mobile Network Engineer.
