Access to Public Information request regarding the existence of the coronavirus

Request:

Hello, i would like to requests information to prove that corona virus has been isolated and therefore exists, i need to see proof of these so called varients existence properly and whatever else these liars are trying to manipulate me with, can i please see proof that the PCR test is a safe legitimate way if testing for this imaginary virus. Thanks .

Response provided by Public Health:

This information is widely available internationally, and not something specific to the States of Guernsey. General information about the coronavirus that causes COVID-19 can be found on the World Health Organisation's website

<https://www.who.int/emergencies/diseases/novel-coronavirus-2019>.

Claims that the virus does not exist are false, and not founded on any evidence. These have been repeatedly fact-checked by independent media (one such example can be found here:
