

PDUK 5-Day Patient Assessment Skills Workshop 6th to 10th September 2022

This five-day course provides health professionals with a 'springboard' for diagnostic proficiency and clinical decision making to advance practice. After studying basic history taking and physical examination techniques, you will have the opportunity to perform a complete physical examination reflecting clinical practice requirements supporting the development of competence and confidence. The course mainly focuses on adult patients.

Aims/Outcomes:

- Learn and use the principles of taking a safe, structured patient history.
- Be able to apply physical examination techniques in an appropriate manner for each of the major body systems
- Perform a complete structured physical examination
- Identify normal and common abnormal findings encountered while conducting a patient examination
- Document findings in a clear, concise manner

Workshop Details:

- Cost: £700
- This workshop is delivered by PDUK and is therefore subject to any travel restrictions.
- All 5 days will need to be completed in full
- PDUK module link on website: **A03 Five-day patient assessment skills workshop: Face to Face | The health professional's training organisation | Practitioner Development UK Ltd (pduk.net)** or scan the QR code below:

Who Should Attend?

This 5 day course is required for those nurses, midwives and SPHNs who want to apply for the Middlesex University Non-Medical Prescribing module, that leads to NMC Prescribing Registration. (They will also have to complete a further Level 7 Advanced Assessment and Clinical Decision-Making module as part of this entry criteria).

Contact Rachael.Major@gov.gg for any queries relating to the workshop

Final closing date for applications: Monday 20th June 2022
Please send applications to joanna.anastacio@gov.gg
