### **Freedom of Information request regarding roadworks on Le Grand Bouet**

---

**Request:**

Le Grand Bouet is a busy, principal road linking the eastern seafront to the northern edge of St Peter Port and onwards towards the centre of the island.

It would appear that it is often closed for roadworks of one description or another.

Please can you tell me how many times it has been closed since January 2010?

I would also like to know the duration of the closures and the reason.

**Response provided by the Committee *for the* Environment & Infrastructure:**
