

## Freedom of Information Request

**Date of receipt:** 21<sup>st</sup> April 2023

**Date of response:** 28<sup>th</sup> April 2023

### Fire risk assessment for the whole of the White Rock premises

---

**Request:**

*"[Fire risk assessment for the whole of the White Rock premises. (including White Rock Cafe, Alderney Shipping offices, workshops and premises occupied by Guernsey Harbours)]*

*We would like make a request to see this document in its entirety. We understand that there is a report dated 2019 and possibly 2005.*

*We would request that information pertaining to the fire risks of the 'White Rock/Cambridge Berth' complex be available for us to view.*

*The reason for this request is that we presently occupy part of these premises and we feel it prudent to know what risks we are exposed to by our neighbours and what measures have been recommended to mitigate our risks."*

**Response from Guernsey Ports**

Please find enclosed 2019 document "Fire Risk Assessment: Guernsey Harbours St Julian's Emplacement & Associated Tenanted Buildings". The report has been reviewed by the team at Guernsey Ports in line with the Freedom of Information code.

The names of individuals either acting on behalf of companies at the time or no longer in the specified roles have been redacted.

A number of the recommendations have been acted upon since the report was written a little under 4 years ago, and a new review of the premises by Guernsey Fire and Rescue Service is soon to be programmed in.

It has not been possible to identify the 2005 report referred to in your request.

**Ends**
