THE AIRPORT AND ECONOMIC DEVELOPMENT IN ALDERNEY

1. To approve that States Report, but subject to paragraphs b) and e) of Proposition 4.

2. To direct the Policy Council to report back to the States of Deliberation with the results of its current appraisal of the financial relationship between Guernsey and Alderney (as detailed in Appendix G in that Report), including appropriate recommendations, no later than March 2016.

3. To direct the Policy Council to publish an action plan defining the extent of the above appraisal no later than March 2015.

4. To direct the Public Services Department to prepare its Alderney Airport States Corporate Investment Portfolio submission based on the following:

   a) to include proposals for full refurbishment of the existing asphalt runway at its existing length (877m), to hard surface to the existing width of 23m and to include an overlay of the whole runway and ancillary taxiway and aprons;

   b) to postpone capital works on grass runway 14/32 for a minimum of 12 months, and until a seasonal evaluation can be undertaken on the success of heavy maintenance improvement on this runway which will be completed by the end of Spring 2015;

   c) at the present time, not to include any proposals to extend the existing asphalt runway to 1100m or to widen or strengthen the existing taxiways to accommodate an 40-seater aircraft, on the basis of indicative cost and an absence of direct evidence to link a significant investment in the runway to economic growth, provided that no works are carried out that would effectively prevent such an extension at a future date (if demand...
grows to a point where a sound evidence-based business case can be
developed to justify such an extension);

d) to retain the potential lengthening of the asphalt runway as an issue to be
reviewed in the future dependent on economic development and subject
to a persuasive case in future; and

e) through the States Capital Investment Portfolio (SCIP), to develop a
robust business case identifying the costs and benefits of hard surfacing
and extending the short grass runway (03/21) to 600m and to provide
Airport ground lighting to that runway to improve cross wind capability
for Dornier 228 aircraft; such business case to be developed in co-
operation with the States of Alderney.

5. To direct the Commerce and Employment Department, in co-operation with the
States of Alderney Policy and Finance Committee, to consider the best
mechanism(s) by which the existing Guernsey-Alderney and Alderney-
Southampton air routes might be safeguarded in terms of fares, frequencies and
capacities on the basis of the best available evidence about the likely economic
impacts, using the most appropriate legislative/administrative vehicle(s) to
achieve these objectives.

6. To direct the Commerce and Employment Department, in liaison with the
Alderney Policy and Finance Committee, to regularly review the terms of the
above arrangements used in order to reflect changes in Alderney’s economic
conditions.

7. To direct the Policy Council, through the Alderney Liaison Group, to liaise with
the States of Alderney Policy and Finance Committee to develop a jointly
agreed position on future strategic policy developments setting out roles and
responsibilities including the preparation of an action plan detailing measures to
safeguard and develop the economy of Alderney, an initial draft of which to be
considered by the Alderney Liaison Group by 31st March 2015.

8. To direct the Commerce and Employment Department to provide assistance, as
appropriate and where resources allow, to the States of Alderney Policy and
Finance Committee to develop their existing economic strategy to include clear
policy actions, timetables for delivery and an approach to evaluating the impact
of the actions taken.

and joint use of resources for co-marketing and promotion in areas such as Tourism and Finance.

11. To direct the Policy Council and Commerce and Employment Department to work with the States of Alderney Policy and Finance Committee, as appropriate and where resources allow, to improve the collection and analysis of more robust economic data pertaining to Alderney. This data to include use of, and demand (met and unmet) for, all scheduled air routes to Alderney, so that an extension to the runway can be re-visited in future if a sound evidence-based economic case can be developed.

12. To direct the Policy Council to liaise with appropriate States Departments over the detailed recommendations in the Frontier Economics Report which are not specifically covered in the broader recommendations above, and which fall within Departmental mandates.

To direct the Policy Council to liaise as necessary with other States Departments and the States of Alderney Policy and Finance Committee to monitor the effectiveness of these measures in helping to stimulate sustainable economic growth in Alderney, and in arresting de-population, and to report back to the States on these matters by the end of 2016.
