This report is based on a survey carried out in January 2015. All 1,267 schools in UK membership of the constituent associations of ISC ("ISC schools") completed the survey.

Appendix One gives a snapshot of ISC schools as they were in January 2015. Appendix Two shows comparative figures for the schools that completed the Census in both 2014 and 2015 and is therefore the best guide for annual change.

ISC's constituent associations are: the Association of Governing Bodies of Independent Schools (AGBIS), the Girls' Schools Association (GSA), the Headmasters' and Headmistresses' Conference (HMC), the Independent Association of Prep Schools (IAPS), the Independent Schools Association (ISA), the Independent Schools' Bursars Association (ISBA) and the Society of Heads (SofH).

Four associations are affiliate members of ISC: the Council of British International Schools (COBIS), the Boarding Schools' Association (BSA), the Scottish Council of Independent Schools (SCIS) and the Welsh Independent Schools Council (WISC).

The Society of Heads was previously known as the Society of Headmasters and Headmistresses of Independent Schools and was referred to as SHMIS in Censuses up to 2011.

The ISC research team would like to thank all participating schools for the considerable time taken to complete the Census and to check returns, particularly during the busy start of the spring term and when other Census completions are required. The online data collection system is working well and allows us to continually improve and ensure accuracy.

## Foreword

This year's Census of the 1,267 independent schools across the UK that collectively make up ISC provides confirmation of the resilience and stability of the sector. Pupil numbers now stand at their highest level since records began in 1974. It is wonderful news that pupil numbers in schools in the north of England and Wales have grown this year. As David Turner explains in his book The Old Boys, in many respects this is a golden year for independent schools.

This Census is all about hard facts. It shows comprehensively and dispassionately what the state of the sector is. And overwhelmingly, the facts that this Census lays out are of a sector that is performing with resilience and stability.

How is it that the independent sector has confounded the predictions of doom and gloom? At the heart of it all are high expectations and outstanding attainment; our schools are well ahead of the competition. Over half of our pupils' A-levels were graded $A^{*} / A$ last summer, helping them to access the top universities and jobs. The proportion of GCSE/IGCSE entries graded $A^{*}$ rose to $33 \%$ in stark contrast to the fall nationally.

High standards at ISC schools are also apparent from the range of wonderful opportunities for pupils outside the classroom, and from the serious, professional approach to pastoral care they offer.

Above all, it is the hard work of the talented staff at ISC schools - both teaching and nonteaching staff - who provide the education that parents find so attractive for their children. They are able to do this because of the independence that our schools have and cherish: undistracted by state-imposed accountability measures, they are free to focus on the needs of each individual pupil. The figures in this Census are therefore testament to their work.

Barnaby Lenon, Chairman<br>Independent Schools Council

## Executive Summary

## 1. INDEPENDENT SCHOOLS HAVE WEATHERED ECONOMIC PRESSURES WELL AND A STRONGER SECTOR IS EMERGING AS A RESULT

- There are now 517,113 pupils at 1,267 ISC member schools, up from 511,928 in 2014. This represents the highest increase in pupil numbers since the start of the economic crisis in 2008. Moreover, pupil numbers have now exceeded the previous (pre-recession) high and stand at their highest level since records began in 1974. Increases in pupil numbers this year reflect increases in both British and non-British pupils.
- Regionally, economic pressures were more pronounced outside London and surrounding areas but this year there were clear green shoots in recovery. For the first time since 2007, there were increases in like-for-like pupil numbers in the North of England. Moreover, Wales, one of the worst hit areas in terms of pupil numbers at ISC schools, experienced significant increases in pupil numbers this year.
- Schools appear to have adapted well to economic pressures; careful financial planning has allowed schools to implement the lowest fee increase since 1994; structurally schools are growing in size and, on occasion, merging with other ISC schools to benefit from economies of scale (nine ISC schools merged with other ISC schools this year).

## 2. THE INDEPENDENT SECTOR IS DIVERSE AND IS BECOMING INCREASINGLY SO

- ISC schools vary from large well-known boarding schools to small day schools best known in their local communities, from single sex schools to co-educational schools, and from special schools catering exclusively for pupils with special educational needs to schools providing specialist music and dance provision.
- 382,389 pupils attend co-educational schools; 134,724 attend single-sex schools.
- 446,471 pupils are day pupils; 70,642 are boarders.
- 66,026 pupils are identified as having a special educational need or disability.
- More than 2,500 pupils attend specialist music and dance schools.
- Britain is ethnically diverse and this is mirrored in ISC schools; 29\% of ISC pupils are from a minority ethnic background and this varies regionally, as in Britain as a whole. Further, ISC schools have reflected the increasing diversity of Britain over time; the proportion of ethnic minority pupils at ISC schools has increased from 23\% to 29\% since 2009.
- ISC pupils come from a wide range of socio-economic backgrounds; from pupils with the most affluent parents to pupils from the most financially disadvantaged families on full bursaries: 5,406 pupils are currently on full bursaries at ISC schools.
- Pupils move freely between the state-funded and independent sectors; one quarter of all new pupils to ISC schools this year came from state-funded schools.
- Finally, ISC schools are proud to compete globally and welcome international pupils to their schools; 27,211 pupils are from overseas. These pupils add a global perspective that is not generally found at state-funded schools.

## 3. THE INDEPENDENT SECTOR IS COMMITTED TO CONTROLLING FEE INCREASES AND PROVIDING AN INCREASING AMOUNT OF FEE ASSISTANCE

- This year fees increased by 3.5\%, the lowest increase since 1994.
- Fee levels vary significantly across regions reflecting the sensitivity of schools'financial planning to local economies; fees range from just over $£ 3,000$ per term for a typical day school in Wales to just over $£ 5,000$ per term for a typical day school in London.
- Fee assistance grew again this year, continuing the long term trend. Almost 170,000 pupils, an unprecedented number, now receive help with their fees with a record value of more than $£ 800 \mathrm{~m}$.
- ISC schools provide more than twice as much assistance in the form of means tested bursaries as they do scholarships; over 40,000 pupils are currently benefitting from a means tested bursary, valued at almost $£ 350 \mathrm{~m}$ and representing an increase of $6 \%$ compared to last year, well above the rate of fee increase.

## 4.THE INDEPENDENT SECTOR IS COMMITTED TO PROVIDING FURTHER PUBLIC BENEFIT BEYOND FEE ASSISTANCE

- Beyond fee assistance, ISC schools undertake a wide range of work with state-funded schools and in the wider community; $93 \%$ of schools are involved in such partnerships. To put this figure into context, only $80 \%$ of ISC schools hold charitable status.
- In addition to partnerships, nearly all ISC schools (98\%) raise funds for charities. This year, more than $£ 15 \mathrm{~m}$ was raised for charity by ISC schools.

## 5. UK INDEPENDENT SCHOOLS ARE PROUD TO COMPETE ON A GLOBAL SCALE

- ISC schools are attracting an increasing number of non-British pupils; this is testament to the world class education that ISC schools offer. ISC schools welcome these pupils and the diversity that they bring.
- There are 27,211 non-British pupils at ISC schools whose parents live overseas.
- A further 16,821 pupils are non-British with parents living in the UK.
- Collectively, non-British pupils make up $8.5 \%$ of all ISC pupils.
- An increasing number of ISC schools have overseas campuses; there are 44 campuses overseas educating 24,710 pupils.
- Most (92\%) ISC pupils progress to higher education and the majority attend Russell Group universities. Slowly increasing numbers are choosing to study overseas reflecting the global outlook of pupils at ISC schools; 4\% of ISC pupils going on to higher education chose to study at non-UK universities in 2014.

## ISC Schools: Location, School Type, Structure and Size

Figure 1a clearly illustrates that the majority of ISC schools are located in Southern England; indeed, 47\% of ISC schools are located in London and the South East educating proportionately more pupils independently than most other areas of the UK (as illustrated by Figure 1b). Other areas with a high proportion of independently educated pupils include Shropshire, Oxfordshire and Edinburgh'.

Figure 2 shows that ISC schools are more likely to be junior schools than senior or mixed-age schools, they are more likely to be co-educational schools than single-sex and more likely to be day schools than boarding schools. Figure 3 illustrates the difficulties in categorising independent schools neatly due to their differing structures.

Fig 1a. ISC school location
The map below illustrates locations of ISC schools. It is based on ISC data 2015 and covers all of the UK.

Fig 1b. Independent pupil density
The map below illustrates pupil density ${ }^{2}$. It is based on DfE data 2014 and therefore includes all independent schools but is confined to England and Wales.
2. Pupil density relates to the proportion of school age

[^0]
## Fig 2: ISC school membership

The following illustrates the number of schools in ISC membership by school type. Schools are categorised by pupils'age, gender and whether they have day or boarding pupils; each school appears only once in each category type. It also reconciles changes in membership between 2014 and 2015.

## Age

1,267 Total number of schools

## 616 Junior schools

Schools where all pupils are in Year 8 or below

## 420 Mixed-age schools

All other schools with mixed age ranges

## 231 Senior schools

Schools where all pupils are in Year 7 or above

## Gender

## 979 Co-educational schools

Schools that do not fall into either the category of boys' or girls' schools

## 175 Girls' schools

Schools with no boys in year groups above nursery

## 113 Boys' schools

Schools with no girls in year groups above nursery

## Day/Boarding

## 782 Day schools

Schools that have no boarders

## 485 Schools with boarders

Schools that have at least one boarding pupil

## Changing Membership

Since last year's Census, where 1,257 schools were in membership of the constituent associations: 16 schools left, 33 schools joined, 9 schools merged to form 4 new schools and 4 schools consolidated records with affiliated schools to form 2 schools for Census reporting. There are therefore 1,267 schools in membership this year, 1,234 of which participated in both the 2014 and 2015 Census; the figures from these schools make up the table in Appendix 2 for a like-for-like comparison of the sector.

Fig 3. ISC school structures
ISC schools cover a range of different year groups, sometimes making categorisation difficult. Figure 2 illustrates the numbers of ISC schools according to whether they are junior, mixed-age or senior. For completeness, Figure 3 shows the most common sets of year group ranges found within ISC schools. The blue bars show year group structure for each sub category. The numbers in white indicate the number of schools that share that particular year group structure.

As well as displaying differing structures, ISC schools vary significantly in size (as illustrated in Figure 4) from having fewer than 50 pupils to over 1,700, although the majority of schools have fewer than 350 pupils. Nonetheless, due to the long tail of large schools the mean school size is just over 400.

Figure 5 illustrates the long term trend in school size; ISC schools are, on average, $30 \%$ bigger than they were in the mid-1980s, when records began. Some of this increase can be attributed to school

mergers, which have been particularly prevalent during periods of recession. Nine ISC schools merged in the past year.

Finally, as illustrated in Figure 6, school size tends to vary according to the type of school; senior schools tend to be larger than junior schools, schools with boarding pupils tend to be larger than schools with only day pupils, and schools that are entirely single-sex tend to be larger than co-educational schools. Due to these size variances, the remainder of this report focuses on pupil numbers to illustrate trends within the sector.

Fig 4. Size of school

Fig 5. Mean school size from 1985 to 2015

Fig 6. Mean school size by type of school

| Type of school | Average size |
| :--- | ---: |
| Junior | 249 |
| Mixed-age | 578 |
| Senior | 523 |
| Day | 388 |
| Boarding | 441 |
| Co-educational | 391 |
| Single-sex | 468 |
| Overall Average | $\mathbf{4 0 8}$ |

' Some school structures are excluded from this illustration because their structure is shared by fewer than 10 schools; 88 schools are excluded -10 senior schools, 39 mixed-age schools and 39 junior schools.

## Pupil Numbers

There are now 517,113 pupils at ISC schools, up from 511,928 in 2014. Day pupils make up $86 \%$ of all pupils with boarding pupils representing $14 \%$. These proportions have not changed significantly in the last15 years (see Figure 24 on Page 16 for further details).

Fig 7. Total school and pupil numbers
For more details refer to Appendix 1, Tables 1, p28-29.

|  |  | Number |
| :--- | ---: | ---: |
| Member schools |  |  |
| Schools with charitable status | 998 |  |
| Other | 269 |  |
| Total | 1,267 |  |
| Not-for-profit/For-profit schools |  |  |
| Not-for-profit | 1,025 |  |
| For-profit | 242 |  |
| Total | $\mathbf{1 , 2 6 7}$ |  |
| Boarding pupils | 38,888 | 7.5 |

| Day pupils (boys) | 221,166 | 42.8 |
| Day pupils (girls) | 446,471 | 86.3 |
| Total | 264,193 | 51.1 |
| All pupils | 252,920 | 48.9 |
| Total (boys) | 517,113 | 100 |
| Total (girls) |  |  |
| Total |  |  |

Figures 6 and 8 show that approximately half of ISC schools are junior schools, although, as they tend to be smaller (average size of 249 pupils), they educate around one third of the pupils at ISC schools. One sixth of ISC schools are senior schools (average size of 523 pupils), educating just under a quarter of all pupils. One third of ISC schools are mixed-age (average size of 578 pupils), educating just under one half of all pupils.

Fig 8. Number of schools and pupils by school type

| School type: Age | Schools | \% of all <br> schools | Pupils | \% of all <br> pupils |
| :--- | ---: | ---: | ---: | ---: |
| Senior | 231 | 18.2 | 120,800 | 23.4 |
| Mixed-age | 420 | 33.1 | 242,701 | 46.9 |

Figure 9 shows year-on-year comparisons, based on the 1,234 schools that completed the Census in 2014 and 2015. The number of pupils in these schools increased by $0.6 \%$, illustrating a rise in the number of pupils that is not skewed by new schools coming in to membership of ISC between the years.

Between 2014 and 2015 the number of boarders at ISC schools rose by $1.0 \%$, while the number of day pupils increased by $0.6 \%$.
The rise in pupil numbers at those schools completing the Census in both 2014 and 2015 was slightly higher for girls than for boys. The highest rise, for a specific group, was $1.4 \%$ among boarding girls.

Fig 9. Change in pupil numbers between 2014 and 2015
This table compares pupil numbers from the 1,234 schools that gave Census returns in both 2014 and 2015. 2015 figures are printed in bold, 2014 figures are represented underneath in italics. Figures highlighted in yellow give the percentage change between the two years. For more detail, refer to Appendix 2, Table 1, p43.

|  | Boarders | Day pupils | All pupils |
| :--- | ---: | ---: | ---: |
| Boys | $\mathbf{3 8 , 0 3 3}$ | $\mathbf{2 2 3 , 4 3 4}$ | $\mathbf{2 6 1 , 4 6 7}$ |
|  | 37,797 | 222,288 | 260,085 |
| Girls | $0.6 \%$ | $0.5 \%$ | $0.5 \%$ |
|  | $\mathbf{3 1 , 0 5 5}$ | $\mathbf{2 1 9 , 5 2 6}$ | $\mathbf{2 5 0 , 5 8 1}$ |
| Total | 30,620 | 218,172 | 248,792 |
|  | $1.4 \%$ | $0.6 \%$ | $0.7 \%$ |
|  | $\mathbf{6 9 , 0 8 8}$ | $\mathbf{4 4 2 , 9 6 0}$ | $\mathbf{5 1 2 , 0 4 8}$ |
|  | 68,417 | 440,460 | 508,877 |
|  | $1.0 \%$ | $0.6 \%$ | $0.6 \%$ |

Figure 10 demonstrates the resilience of the sector throughout challenging economic times and wider demographic pressures. Between 2007 and 2009, ISC pupil numbers grew by 1\%. This is despite there being a much smaller pool of available pupils: between 2007 and 2009, the number of school age children in England as a whole dropped by almost $1 \%$.

The effects of the financial crisis appeared to hit ISC schools between 2009 and 2011, when pupil numbers fell slightly from the then all-time high. This time lag is not surprising given the nature of expenditure on education provision. Five years on, ISC schools are now reporting a sizeable increase in pupil numbers and for the first time, pupil numbers are exceeding that of the previous high of 514,531 pupils in 2009. More specifically, our pupil numbers now stand at their highest level since records began in 1974.

Fig 10. Cumulative change in pupil numbers since 2007: ISC pupils versus all pupils
Pupil number changes are for England only. Figures for pupil numbers in all schools in England in 2015 are not yet available and are therefore not included.

All categories of school saw an increase in pupil numbers, with the exception of single sex girls' schools, where there has been a like-for-like decrease of $0.2 \%$ in pupil numbers, although the single-sex girls sector remains more than 50\% larger than the single-sex boy sector (see later section Single sex and Co-education, p13 for more details). The number of pupils in single-sex boys' schools rose by $0.5 \%$ and co-educational schools saw a rise of $0.8 \%$.

The highest increase in pupil numbers was among junior schools, where the number of pupils rose by $1.3 \%$. There was a smaller rise of $0.2 \%$ in mixed-age schools and senior schools saw an increase of $0.7 \%$ in pupil numbers.

Fig 11. Change in number of pupils by category of school

|  | Senior | Mixed-age | Junior | Single-sex: boys' | Single-sex: girls' | Co-ed | Boarding | Day | Total |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Schools | 219 | 415 | 600 | 111 | 174 | 949 | 480 | 754 | 1,234 |
| Pupils: 2015 | 118,342 | 242,288 | 151,418 | 53,428 | 81,103 | 377,517 | 212,101 | 299,947 | 512,048 |
| Pupils: 2014 | 117,561 | 241,781 | 149,535 | 53,181 | 81,296 | 374,400 | 210,320 | 298,557 | 508,877 |
|  | 0.7\% | 0.2\% | 1.3\% | 0.5\% | -0.2\% | 0.8\% | 0.8\% | 0.5\% | 0.6\% |

Approximately 7\% of school children are currently educated at independent schools in Britain, but this figure hides a more complex reality. The likelihood of parents sending their child to an ISC school changes with age. Figures 12 and 13 show that pupils in more senior year groups of ISC schools form a higher proportion of all pupils than younger pupils do. Figure 14 further shows that in England over 14\% of school pupils aged 16 and over attend an ISC
school. The important conclusion from these illustrations is that some pupils move into the independent sector during the course of their schooling. This happens at all ages but is more pronounced at certain ages (such as age 16). The divide between independent and state is therefore a porous one and hence more than $7 \%$ of pupils attend an independent school at some point during their school career.

Fig 12. Age profile of ISC pupils

Fig 13. Year group profile of ISC pupils

Fig 14. Proportion of all school aged children in England attending an ISC school by age

Trends in pupil numbers also varied across the age groups (see Tables 2 and 3 in the Appendices for more details). In the youngest year groups, years 6 and below, there was a growth of $1.1 \%$ at those schools completing both the 2014 and 2015 Census. Among pupils in years 7 to 11 there was a fall of $0.6 \%$, and in years 12 and 13 there was strong growth with a rise of $2.6 \%$.

For the first time this year, ISC schools were asked where their new pupils were educated before joining their current school. Figure 15 below illustrates the new pupil breakdown. More than one quarter of pupils new to the independent sector came from state-funded establishments which demonstrate the mobility between the two sectors.

It is worth noting the underlying UK demographic changes that will, to some extent, explain these increases': a declining birth rate before the year 2000 and a rising birth rate over the past 14 years help to explain the rise in junior pupil numbers and the fall in senior. However, the strong rise in proportions of pupils attending sixth forms counteracts national demographics and demonstrates the attractiveness of this stage of school provision.

Finally, to conclude this section, it is of interest to note that the net ${ }^{2}$ additional 5,185 pupils this year is made up of both British and nonBritish pupils i.e. there have been rises in both types of pupils ${ }^{3}$

Fig 15. New pupils breakdown

## Pupil Numbers: Regional Differences

ISC schools in different parts of the country have faced different challenges. Figure 16 illustrates the like-for-like* cumulative change in pupil numbers by region since 2007 demonstrating the effects of economic challenges by region. London and the South East have managed to consistently grow pupil numbers during this period. Pupil numbers in London and the South East are 7\% and 5\%,
respectively, higher than they were in 2007. In contrast, the hardest hit areas, the East Midlands and the North, now have 6\% and 7\%, respectively, fewer pupils than they did in 2007. Wales also suffered significant declines in the period 2007 to 2014 but has recovered quite considerably this year.

Fig 16. Cumulative change in pupil numbers by region: 2007-2015 (like-for-like*)

Wales is not the only region that has bucked recent declining trends in pupil numbers this year. Figure 16 clearly demonstrates sizeable increases in the West Midlands and East Anglia, areas which had recently seen a fall in pupil numbers, although these areas had not suffered to the same extent that Wales had.

Figure 17 illustrates the non-cumulative, year-on-year, like-for-like changes in pupil numbers for London and the North, the two regions that had the most polar experiences in terms of pupil numbers. Viewing the data in this way makes it easier to identify smaller year-on-year increases that would be lost on a cumulative basis. This chart demonstrates further evidence of green shoots appearing in recovery. More specifically, for the first time since the economic pressures first affected the sector, the north of England has experienced like-for-like increases in pupil numbers. The same is also true of the East Midlands which has experienced nearly identical trends to the north of England. Moreover, among those schools that participated in the Census in both 2014 and 2015 there was a rise in pupil numbers in all regions, the only exception being the South West (see Table 5 Appendix 2 p48 for more details).

Fig 17. Year on year change in pupil numbers: London and the North of England

* Like-for-like in this instance includes only those schools that were present throughout the entire period 2007-2015, which relates to 1,106 ISC schools. This therefore differs to the like-for-like sample data displayed in Appendix 2 which relates to 1,234 ISC schools present in 2014 and 2015 only.

## Pupil Numbers: Single-sex and Co-education

The majority of ISC schools are co-educational, approximately one quarter are single-sex. However, 32 of these schools are single-sex except in their nursery. Excluding these schools in the count of singlesex schools equates to $19 \%$ of ISC schools being entirely single-sex.

Further, Figure 18 illustrates that there are many other schools that are predominantly single-sex. Single-sex girls'schools are more common than single-sex boys'schools and co-educational schools tend to have slightly more boys than girls.

Fig 18. Girls as a percentage of all pupils

Figure 19 illustrates the proportion of single-sex versus co-education at each of the different year groups. Co-education is very common at nursery level where over $91 \%$ of ISC schools have both boys and girls in the year group. As children get older, single-sex education becomes more common, reaching a peak between years 7 and 11 where around
$40 \%$ of ISC schools have year groups of either all boys or all girls. At sixth form there is a slight shift back to co-education. Finally, it is interesting to see that after year 8, single sex girls'schools are nearly three times as numerous as single sex boys'schools.

Fig 19. Proportion of year groups that are entirely boys, entirely girls, or have both

## Pupil Numbers: SEND Provision

66,026 pupils at ISC schools ( $13 \%$ of all pupils) have special educational needs and/or disability (SEND). 2,941 pupils are statemented (4\% of all ISC SEND pupils). The most common SEND is dyslexia representing nearly half of SEND pupils in ISC schools.

Fig 20. SEND pupils

| Type of SEND | Total Pupils |
| :--- | :---: |
| Dyslexia | 31,169 |
| Information Processing | 9,053 |
| Other Unspecified | 8,412 |
| Dyspraxia | 5,459 |
| Speech \& Language | $13.7 \%$ |
| Gross \& Fine Motor Skills | 4,747 |
| ASD or Asperger's Syndrome | 3,720 |
| ADD or ADHD | 3,597 |
| MLDs | 3,267 |
| Emotional \& Behavioural | 3,106 |

Note, some pupils have more than one SEND: they are counted under each individual category of SEND, but are counted only once in the total.

## Ethnic Diversity

$71 \%$ of all ISC pupils are from a white British background while 29\% are from a minority ethnic background. Figures for the state-funded sector only cover schools in England and the latest data available is from 2014. Figure 22 therefore compares ethnicity in England only in 2014 for both ISC schools and state-funded schools. This shows that the ethnic makeup at ISC schools broadly mirrors that of all state-funded schools.

Fig 21. Ethnicity of ISC pupils (2015)

|  | No. pupils | \% share |
| :--- | ---: | ---: |
| White British | 275,418 | $70.9 \%$ |
| Minority ethnic | 113,011 | $29.1 \%$ |
| Total | $\mathbf{3 8 8 , 4 2 9}$ |  |

As per the UK as a whole, ethnicity in ISC schools varies by region as illustrated by Figure 23. Finally, as per the trends experienced among pupils in the state-funded sector, the proportion of pupils from a minority ethnic background at ISC schools has increased in recent years; $23 \%$ of ISC pupils were classed as minority ethnic in 2009*, compared to $29 \%$ now.

Fig 22. Ethnicity comparisons for schools in England: Number of pupils and \% share (2014)

|  | ISC <br> schools | \% share | State-funded <br> schools | \% share |
| :--- | ---: | ---: | ---: | ---: |
| White British | 255,646 | $71.3 \%$ | $4,859,730$ | $72.3 \%$ |
| Minority ethnic | 102,933 | $28.7 \%$ | $1,863,365$ | $27.7 \%$ |
| Total | $\mathbf{3 5 8 , 5 7 9}$ |  | $\mathbf{6 , 7 2 3 , 0 9 5}$ |  |

Fig 23. Ethnicity of ISC pupils by region (2015)

[^1]
## Pupil Numbers: Boarding Pupils

There are 70,642 boarding pupils at ISC schools, making up 14\% of total pupil numbers. At those schools completing Census returns in both 2014 and 2015, the number of boarding pupils rose by $1.0 \%$. Figure 24
shows the number of boarders at ISC schools since 2000 and also the percentage of all pupils that they accounted for. In the past 15 years, boarding numbers and proportions have remained relatively flat.

Fig 24. Boarders at ISC schools: 2000-2015

Figure 25 illustrates the proportions of boarding pupils at ISC schools - 485 schools, representing $38 \%$ of all ISC schools, cater for boarding pupils (see Appendix 1 Table 17 p39 for more details). Note however
that the large majority (90\%) of ISC boarding schools have less than half their pupils boarding. Only $1 \%$ (or 14 schools) are exclusively boarding.

Fig 25. Boarders as a percentage of all pupils

Figure 26 illustrates notable regional variations. At schools located in the South West, $28 \%$ of pupils board, while at schools in Greater London, just $3 \%$ of pupils board.

Figure 27 illustrates boarding patterns for the sector as a whole and by year group. For the sector as a whole, $14 \%$ of pupils at ISC schools board. At sixth form this proportion more than doubles to over one third of all pupils at sixth form boarding. For junior pupils this proportion is significantly lower, less than $2 \%$.

In addition to boarding being far more prevalent at sixth form than at junior level, sixth form pupils are far more likely to board on a full time basis: $84 \%$ of sixth form boarding pupils are full boarders, $8 \%$ are weekly boarders and 8\% are flexi boarders. In contrast, less than half of junior boarding pupils board full time.

Fig 26. Boarders as a percentage of all pupils in each region

| Region | Number of schools | Number of schools with one or more boarders | $\begin{aligned} & \text { Total } \\ & \text { boarders } \end{aligned}$ | Boarders as a \% of pupils |
| :---: | :---: | :---: | :---: | :---: |
| South West | 135 | 92 | 13,634 | 28.0\% |
| Wales | 20 | 12 | 1,793 | 22.7\% |
| South East | 374 | 174 | 27,964 | 19.4\% |
| East Midlands | 64 | 25 | 4,422 | 17.9\% |
| West Midlands | 94 | 35 | 5,062 | 13.8\% |
| East Anglia | 155 | 62 | 6,455 | 10.5\% |
| Scotland | 33 | 18 | 2,379 | 9.5\% |
| The North | 159 | 44 | 6,032 | 8.7\% |
| Greater London | 216 | 17 | 2,478 | 2.9\% |
| Grand Total | 1,267 | 485 | 70,642 | 13.7\% |

Fig 27. Full, weekly and flexi boarding by year group

## Senior (excl. Sixth form)

Note, for Figure 27, a pupil is classed as a boarder if they boarded at some point during the autumn term 2015. In previous tables and charts, pupils are counted as a boarder if they boarded on Census day (15th January 2015). A larger number of boarders are therefore recorded in Figure 27.

## International Footprint: Non-British Pupils

There are two categories of non-British pupils at ISC schools: those whose parents live overseas, and those whose parents live in the UK. This is only the second ISC Census to report on non-British pupils with parents living in the UK.

## Non-British Pupils whose parents live overseas

In ISC schools, there are currently 27,211 non-British pupils whose parents live overseas, which represents just over 5\% of the total ISC pupil population in 2015. This highlights the attraction of an education at an ISC school to a global market. By far the largest numbers of pupils come from China and Hong Kong.

Non-British pupils whose parents live overseas are more numerous at ISC schools in the sixth form than as junior pupils: $56 \%$ of such pupils are in years 12 \& 13, 42\% in years 7 to 11, with only $2 \%$ in years 6 and below. Not surprisingly, these pupils are much more likely to board: $92 \%$ of non-British pupils whose parents live overseas choose to board. There is no significant gender difference among these pupils: $51 \%$ are boys and $49 \%$ are girls.

Figure 29 illustrates trends in non-British pupils whose parents live overseas since 2007, when the Census first started collecting this data. There has been steady growth in pupil numbers from China and Russia in this period. In Europe there was a period of steady growth to 2012 followed by a small decline. According to the British Council, the recent decline in pupils from Hong Kong is mainly attributable to a decline in the number of school age children and the fact that fewer civil servants can now claim an overseas education allowance for their children

Since 2009, schools wishing to recruit pupils from outside a non-EEA country (excluding Switzerland) have been required to hold a Tier 4 sponsor licence issued by UK Visas and Immigration (UKVI). Subject to minor exceptions, therefore, any school recruiting non-EEA pupils must be on UKVI's register of licensed sponsors Our Census discloses that 692 ISC schools are Tier 4 sponsors.

Fig 28. Non-British pupils with parents living overseas

| Country | New to their school this year | \% | Total nonBritish pupils with parents living overseas | \% |
| :---: | :---: | :---: | :---: | :---: |
| Mainland China | 2,893 | 22.3\% | 5,683 | 20.9\% |
| Hong Kong | 1,683 | 13.0\% | 4,785 | 17.6\% |

| Ireland | 20 | 0.2\% | 97 | 0.4\% |
| Total non-British pupils with parents living overseas | 12,994 |  | 27,211 |  |

Fig 29. Number of non-British pupils whose parents live overseas from selected countries at ISC schools: 2007-2015

## Non-British Pupils whose parents live in the UK

In 2014 the Census started collecting information on non-British pupils whose parents live in the UK. There are currently 16,821 such pupils. Among these pupils, over 40\% come from EEA countries and a further 15\% come from the USA.

It is therefore likely that last year's pupil numbers were artificially low due to these 257 schools amending their record keeping in 2015 so that these pupils could be included in this year's Census. Therefore, caution should be exercised when drawing conclusions about trends in these pupil numbers at this stage.

In 2014, the first year in which data was collected, the Census
recorded 11,329 such pupils. However, 257 schools did not submit any information under this category and yet disclosed 5,505 pupils this year.

Fig 30. Non-British pupils with parents living in the UK

| Country/Region | New to their school this year | \% | Total non-British pupils with parents living in the UK | \% |
| :---: | :---: | :---: | :---: | :---: |
| Remainder of Europe EEA | 875 | 19.7\% | 3,310 | 19.7\% |
| USA | 655 | 14.8\% | 2,517 | 15.0\% |

| Taiwan | 7 | 0.2\% | 21 | 0.1\% |
| Total non-British pupils with parents living in the UK | 4,434 |  | 16,821 |  |

## Non-British Pupils: All

Figure 31 illustrates the relative numbers of pupils at ISC schools from different regions as well as whether or not their parents live in the UK. Figure 32 shows the numerical breakdown. In total, $38 \%$ of non-

British pupils have parents living in the UK. As one might expect, this percentage is significantly higher for Irish pupils than it is for Chinese pupils.

Fig 31. Nationality of non-British pupils at ISC schools

Finally, as well as non-British pupils, there are 4,820 British pupils at ISC schools whose parents serve in HM Forces. After the sharp drop in pupil numbers in the period 2011 to 2013 (reflecting the changes to the "Continuity of Education Allowance"), pupil numbers have since been relatively stable. In addition there are 4,175 other British pupils whose parents live overseas (see Appendix 1 Table 13 p36 for more details)

Fig 32. Non-British pupils at ISC schools

|  | Total non- <br> British pupils | Parents in UK | Parents <br> overseas | \% with parents in <br> the UK |
| :--- | ---: | ---: | ---: | ---: |
| Ireland | 1,040 | 943 | 97 | $90.7 \%$ |
| USA | 2,802 | 2,517 | 285 | $89.8 \%$ |
| Australasia | 833 | 721 | 112 | $86.6 \%$ |
| India | 1,121 | 970 | 151 | $86.5 \%$ |
| Pakistan, Sri Lanka \& Bangladesh | 384 | 281 | 103 | $73.2 \%$ |
| Rest of North America | 409 | 297 | 112 | $72.6 \%$ |
| France | 1,478 | 1,051 | 427 | $71.1 \%$ |
| Remainder of Europe EEA | 5,420 | 3,310 | 2,110 | $61.1 \%$ |
| Japan | 815 | 474 | 341 | $58.2 \%$ |
| Middle East | 840 | 441 | 399 | $52.5 \%$ |
| Rest of Africa | 1,257 | 613 | 644 | $48.8 \%$ |

| Total | 44,032 | $\mathbf{1 6 , 8 2 1}$ | $\mathbf{2 7 , 2 1 1}$ | $\mathbf{3 8 . 2 \%}$ |

## International Footprint: Overseas Schools

A growing number of ISC schools are operating overseas campuses. There are currently 44 such campuses educating a total of 24,710 pupils. This represents a rise on last year's figures of 39 campuses with 22,514 pupils. These schools and pupils are not included elsewhere in this Census.

Furthermore, there are approximately 350 ISC affiliated schools i.e. overseas schools in membership of ISC constituent associations.

Fig 33. Location of overseas campuses of ISC schools

| Location | Schools | Pupils |
| :--- | ---: | ---: |
| Mainland China | 12 | 6,162 |
| Middle East | 13 | 9,370 |
| Thailand | 4 | 2,223 |
| South Korea | 3 | 1,820 |
| Remainder of Asia and Far East | 6 | 3879 |
| North America | 4 | 1,173 |
| Europe | 2 | 83 |
| Total | $\mathbf{4 4}$ | $\mathbf{2 4 , 7 1 0}$ |

Figure 34 shows where these schools are located. Data from these schools is not included elsewhere in this Census.

Overseas campuses of ISC schools are only a small part of the landscape of British schools overseas (BSOs). The International Schools Consultancy estimates there to be over 3,000 BSOs, representing around one half of all English-medium international schools worldwide.

Fig 34. Overseas schools in membership of ISC and affiliated associations

| Location | HMC | SofH | GSA | IAPS | ISA | COBIS |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: |

| Asia | 11 | 0 | 0 | 4 | 2 | 27 |
| Australasia | 19 | 0 | 0 | 0 | 0 | 0 |
| Europe | 13 | 4 | 2 | 9 | 0 | 106 |
| Middle East | 4 | 2 | 0 | 11 | 0 | 28 |
| Total | $\mathbf{5 9}$ | $\mathbf{1 0}$ | $\mathbf{3}$ | $\mathbf{4 2}$ | $\mathbf{4}$ | $\mathbf{2 2 8}$ |

## School Fees

The average overall fee, excluding nursery fees ${ }^{1}$, increased by $3.6 \%$ between 2014 and 2015, on a like-for-like basis i.e. for those schools completing the Census in both years. This represents the lowest annual increase since 1994. The equivalent fee rise including nursery fees was 3.5\%.

Fee rises reflect the increase in costs that schools have faced. Figures from Baines Cutler Solutions ${ }^{2}$ show that over the last year independent schools have faced significant increases of 5.4\% in
management and administration costs, well in excess of fee inflation. In contrast, the salary cost per teacher ${ }^{3}$ has seen the lowest increase in almost two decades. Historically, salary costs per teacher have typically increased in line with fee inflation but this year they increased by less than $1 \%$. Significant increases in management and administration costs might reflect the increasing regulatory burden on schools. Low cost per teacher increases could be as a result of a younger teacher workforce as well as strong financial planning in anticipation of imminent pension and National Insurance reforms.

Fig 35. School fees (excluding nursery fees)
Figures represent average fees per term. Average fee figures are based on fees at schools completing the Census in 2015; percentage change is calculated from the change among the 1,234 schools completing the Census in both 2014 and 2015.

| Age Group | Boarding fee (boarding schools) | Day fee (boarding schools) | Day fee (day schools) | Day fee (average) | Overall average fee |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Sixth-form | £10,723 | £6,543 | £4,599 | £5,025 | £6,946 |
| Senior | £9,895 | £5,866 | $£ 4,381$ | £4,667 | £5,568 |
| Junior | £7,287 | $£ 4,462$ | £3,873 | £3,927 | £3,990 |
| Overall* | £10,123 | £5,634 | £4,174 | £4,398 | £5,225 |
| \% change | 4.0\% | 3.0\% | 3.7\% | 3.3\% | 3.6\% |

As one might expect, fees vary significantly between day and boarding schools; boarding fees typically being twice that of day school fees as illustrated in Figure 35. Similarly, fees charged by schools vary by region. For example, the average fee ranges from just over $£ 3,000$ per
term for a typical day school in Wales to just over $£ 5,000$ per term for a typical day school in London (see Table 6 of Appendix 1, p31 for more details).

1. As per previous years, fees are considered both including and excluding nursery fees (nursery fees are typically lower than fees in other year groups).
2. Baines Cutler Solutions, The 2015 National Independent Schools'Benchmarking Survey, London: 2015 (in press).
3. Includes NI and pension costs

## Scholarships \& Bursaries

A total of 167,798 pupils currently receive help with their fees; 1,530 more pupils than last year, representing $33 \%$ of all pupils ${ }^{2}$. The value of this help totals over $£ 800 \mathrm{~m}$, an increase of $7.3 \%$ on last year. A significant majority (84\%) of total fee assistance is provided directly from the schools themselves: ISC schools currently provide more than $£ 700 \mathrm{~m}$ of fee assistance, an increase of $7 \%$ on the previous year.

Fig 36. Contributions to fees ranked by total value of assistance (annual)

|  | Total (pupils) ${ }^{3}$ | Average help <br> received by a pupil | \% of all pupils <br> receiving help | Total <br> (value $£ m$ ) |
| :--- | ---: | ---: | ---: | ---: | ---: |
| The school | 143,510 | 4,911 | 27.8 | 705 |
| The school: means tested | 41,400 | 8,227 | 8.0 | 341 |
| The school: eligible families ${ }^{1}$ | 66,260 | 3,040 | 12.8 | 201 |
| The school: scholarships | 52,683 | 3,090 | 10.2 | 163 |
| Early Years funding | 24,793 | 1,963 | 4.8 | 49 |
| Local Education Authorities ${ }^{2}$ | 1,795 | 19,519 | 0.4 | 35 |
| Government Music and Dance Scheme | 1,481 | 19,633 | 0.3 | 29 |

Figure 37 shows that over the past fifteen years there has been a consistent trend of schools providing fee assistance to an increasing number of pupils and indeed, this year saw the highest number of pupils receiving fee assistance directly from ISC schools since records began.

Fig 37. Proportion of pupils receiving fee assistance: 2000 to 2015

[^2]2 Excludes data for schools in Northern Ireland, the Channel Islands and the Isle of Man
3 Some pupils receive help from more than one source: they are counted under each category, but are counted only once in the total.

Schools give more than twice as much assistance in the form of means tested bursaries as they do scholarships, totalling almost $£ 350 \mathrm{~m}$ representing an increase of $6 \%$ versus last year, well above the rate of fee increase. Bursaries are awarded to $8 \%$ of pupils and are worth an average of $£ 8,227$ per pupil per year, an increase versus last year.

Figure 38 shows a breakdown of the 41,400 means tested bursaries provided by ISC schools. Nearly half of all pupils on means tested bursaries have more than half of their fees remitted and 5,406 pupils pay no fees at all.

Fig 38. Distribution of means tested bursaries

| Size of means-tested <br> bursary | Number <br> of pupils | \% of bursary <br> pupils |
| :--- | ---: | ---: |
| $1-25 \%$ | 10,472 | 25.3 |
| $26-50 \%$ | 13,483 | 32.6 |
| $51-75 \%$ | 6,650 | 16.1 |
| $76-100 \%$ | 10,795 | 26.1 |
| $100 \%$ | 5,406 | 13.1 |

In recent years, there has been an overall shift from scholarships to bursaries, as illustrated in Fig 39. The total value of means tested bursaries provided by schools has increased by more than $£ 80 \mathrm{~m}$ since 2011, a rise of $31 \%$; the total value of scholarships has risen by $15 \%$ over the same period.

Fig 39. Trends in bursaries versus scholarships at ISC schools (2011-2015)*

[^3]
## Partnerships

ISC schools are increasingly forming partnerships with schools in the state-funded sector and working with the wider community, sharing facilities and expertise. 1,179 schools reported that they are involved in such activities, this represents $93 \%$ of all ISC schools, an increase compared to last year.

It is worth noting that only 80\% of ISC schools actually hold charitable status, despite 93\% of ISC schools being involved in state school partnerships and / or work in the wider community.

There are many varied ways in which ISC schools are involved in partnerships (as illustrated by Figure 40), from academic partnerships with state-funded schools to those sharing sporting facilities with the wider community. Figure 41 illustrates a further breakdown of the partnerships at ISC schools. For example, 472 ISC schools enable pupils from state-funded schools to attend certain lessons or other educational events, 141 ISC schools help prepare A-Level pupils at state-funded schools for entry into higher education and 90 schools second teaching staff to state-funded schools.

Fig 41. Partnership activity: wider breakdown
 raised zero funds

## Teaching Staff

A total of 56,295 full-time equivalent teachers are employed at ISC schools. The teaching profession (for the education sector as a whole) has a far greater proportion of female teachers but this is much less pronounced at ISC schools. $38 \%$ of full-time equivalent teachers at ISC schools are men. This compares with a figure of $26 \%$ in state-funded schools ${ }^{1}$.

A total of 8,320 full-time equivalent teaching assistants are employed at ISC schools, making up 13\% of classroom staff. The equivalent proportion at state-funded schools is $35 \%$, almost three times as high.

Fig 42. Teachers and pupil-teacher ratio

| Full-time |  |
| :--- | ---: |
| Men | 20,247 |
| Women | $\mathbf{2 8 , 1 1 7}$ |
| Total | $\mathbf{4 8 , 3 6 4}$ |
| Part-time | 2,738 |
| Men | 12,756 |
| Women | $\mathbf{1 5 , 4 9 4}$ |
| Total |  |
| Overall full-time equivalent (32.5 hours = 1 full-time) | 21,510 |
| Men | 34,785 |
| Women | $\mathbf{5 6 , 2 9 5}$ |
| Total | $9.2: 1$ |
| Pupil-teacher ratio |  |

For more detail see Appendix 1, Tables 19 \& 21, p 40 \& 41 and Appendix 2, Tables 12 \& 14, p55 \& p57.

The pupil-teacher ratio at ISC schools fell slightly to 9.2:1 from 9.3:1 in 2014. This compares to an average of 17.2:1 across all state-funded schools in 2013. Low pupil-teacher ratios at ISC schools reflect the commitment of many schools to teaching a wide range of subjects, even if class sizes are small and costs per pupil are high.

The long term trend in teacher numbers and the pupil-teacher ratio is shown in Figure 44. The pupil-teacher ratio has been consistently falling and now stands at its lowest level since 2000.

Fig 43. Teaching assistants

| Teaching assistants full-time |  |
| :--- | ---: |
| Men | 663 |
| Women | 4,964 |
| Total | $\mathbf{5 , 6 2 7}$ |
| Teaching assistants part-time | 280 |
| Men | 4,322 |
| Women | $\mathbf{4 , 6 0 2}$ |
| Total | 818 |
| Overall full-time equivalent (32.5 hours = 1 full-time) | $\mathbf{8 , 5 0 2}$ |
| Men | $\mathbf{8 , 3 2 0}$ |
| Women |  |
| Total |  |

For more detail on teaching assistants see Appendix 1, Table 20, p40 and Appendix 2, Table 13, p56.

Fig 44. Teachers at ISC schools \& pupil-teacher ratio 2000-2015

[^4]
## Progression to Higher Education

The vast majority of school leavers educated at ISC schools continue to higher education. More specifically, $92 \%$ of all ISC pupils went on to higher education in 2014. This proportion has changed little over time, as illustrated by Figure 45.

Of those continuing to higher education, $96 \%$ do so within the UK, attending more than 150 different universities collectively. The majority (55\%) continue to a Russell Group university. Further, $6.5 \%$ of ISC pupils continue to either Oxford or Cambridge.

For the $4 \%$ of pupils that chose to study outside of the UK, the USA is by far the most popular destination attracting over $50 \%$ of ISC pupils going to overseas universities, as illustrated in Figure 46. ISC pupils go on to a wide range of overseas universities, with over 400 different overseas institutions attracting ISC pupils in 2014.

Finally, pupils choosing to study oversees are not confined to a minority number of ISC schools. Pupils from $56 \%$ of ISC schools go on to higher education overseas with $18 \%$ of schools reporting an increase in the number of pupils going overseas and 17\% reporting a decrease.

Fig 45. Post-18 school-leavers going on to higher education: 2000-2014
This graph shows the number of ISC pupils entering higher education each year from 2000-2014. The year given reflects the year pupils left their school, rather than the year that the figure was published in the Census, meaning that the most recent figure is for 2014. For more detailed information on the various destinations of post A-level leavers, see Appendix 1, Tables 14 \& 15, p37.

Fig 46. Destination of pupils going to non-UK universities

## Appendix One

## Non-Comparative Tables

The tables in Appendix One show figures for all 1,267 ISC schools completing the Census this year and therefore cannot be compared to previous years on a like-for-like basis. These tables follow the same format as last year.

Table 1a. School and pupil numbers by association
This table gives total school and pupil numbers broken down by the five heads' associations.

| Schools | GSA | HMC | IAPS | ISA | SofH | Total |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: |
| Schools with charitable status | 160 | 263 | 507 | 171 | 103 | 998 |

| Total | $\mathbf{1 6 2}$ | $\mathbf{2 6 8}$ | $\mathbf{5 9 2}$ | $\mathbf{3 5 2}$ | $\mathbf{1 0 9}$ | $\mathbf{1 , 2 6 7}$ |
| Not-for-profit | 161 | 268 | 513 | 188 | 104 | 1,025 |
| For-profit | 1 | 0 | 79 | 164 | 5 | 242 |
| Total | $\mathbf{1 6 2}$ | $\mathbf{2 6 8}$ | $\mathbf{5 9 2}$ | $\mathbf{3 5 2}$ | $\mathbf{1 0 9}$ | $\mathbf{1 , 2 6 7}$ |
| Pupils |  |  |  |  |  |  |
| Boarders (boys) | 127 | 26,003 | 9,382 | 4,121 | 4,664 | 38,888 |
| Boarders (girls) | 9,694 | 17,490 | 6,742 | 3,608 | 3,891 | 31,754 |
| Day pupils (boys) | 3,568 | 106,429 | 111,811 | 38,625 | 22,720 | 225,305 |
| Day pupils (girls) | 73,095 | 65,349 | 94,525 | 37,555 | 17,904 | 221,166 |
| Total (boys) | 3,695 | 132,432 | 121,193 | 42,746 | 27,384 | 264,193 |
| Total (girls) | 82,789 | 82,839 | 101,267 | 41,163 | 21,795 | 252,920 |
| Total | $\mathbf{8 6 , 4 8 4}$ | $\mathbf{2 1 5 , 2 7 1}$ | $\mathbf{2 2 2 , 4 6 0}$ | $\mathbf{8 3 , 9 0 9}$ | $\mathbf{4 9 , 1 7 9}$ | $\mathbf{5 1 7 , 1 1 3}$ |

Table 1b. School and pupil numbers by association (further breakdown)

For some ISC schools the heads are in membership of more than one association. For example, a school with pupils from 3 to 18 may have a head in membership of IAPS and HMC but IAPS may only regard the pupils in the junior part of the school as counting towards their membership. Table 1b therefore repopulates Table 1 a allowing for this subtlety. The figures in this table should not be compared to any of the other tables in this Census. The only figures in previous years' of the ISC Annual Census that are comparable are in Table 1b of the 2014 and 2013 Census.

| Schools | GSA | HMC | IAPS | ISA | Soff | Total |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: |
| Schools with charitable status | 160 | 263 | 507 | 171 | 103 | 998 |
| Other | 2 | 5 | 85 | 181 | 6 | 269 |

| East Midlands | £9,397 | £5,691 | £3,694 | £3,914 | $£ 4,893$ |
| Scotland | £9,312 | £5,507 | £3,427 | £3,591 | £4,133 |
| Wales | £8,902 | £4,267 | £3,386 | £3,713 | £4,893 |
| All | £10,123 | £5,500 | £4,093 | £4,304 | £5,099 |

Table 7. Fees by age group (including nursery fees)
Looking at all ISC schools, this table analyses average termly fees by age group.

| Age group | Boarding fee | Day fee (boarding schools) | Day fee (day schools) | Day fee (average) | Overall average fee |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Sixth form | £10,723 | £6,543 | £4,599 | £5,025 | £6,946 |
| Senior | £9,895 | £5,866 | £4,381 | £4,667 | £5,568 |
| Junior | £7,287 | $£ 4,462$ | £3,873 | £3,927 | £3,990 |
| Nursery |  | £2,585 | £2,966 | £2,926 | £2,926 |
| Overall | £10,123 | £5,500 | £4,093 | £4,304 | £5,099 |

Table 8a. Contributions to fees: senior, mixed-age and junior schools (termly values)
For ISC schools categorised by pupil age, this table shows the breakdown of contributions to fees by type of contribution.

|  | Senior (pupils) | Senior (value $£ m$ ) | Mixed-age (pupils) | Mixed-age (value $£ m$ ) | Junior (pupils) | Junior (value $£ m$ ) | $\begin{array}{r} \text { Total } \\ \text { (pupils) } \end{array}$ | Total (value $£ m$ ) | \% of all pupils |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| The school | 41,924 | 96.4 | 69,326 | 102.4 | 32,260 | 36.1 | 143,510 | 234.9 | 27.8 |
| The school: means tested | 13,494 | 50.5 | 20,720 | 49.6 | 7,186 | 13.4 | 41,400 | 113.5 | 8.0 |
| The school: eligible families* | 11,999 | 20.3 | 31,029 | 27.2 | 23,232 | 19.7 | 66,260 | 67.1 | 12.8 |
| The school: scholarships | 23,135 | 25.6 | 25,940 | 25.6 | 3,608 | 3.1 | 52,683 | 54.3 | 10.2 |
| Early Years funding | 77 | 0.1 | 7,939 | 5.5 | 16,777 | 10.7 | 24,793 | 16.2 | 4.8 |

| Hearing Impairment | 323 | 777 | 491 | 142 | 271 | 1,178 | 577 | 1,014 | 1,591 |
| Visual | 260 | 529 | 295 | 102 | 146 | 836 | 386 | 698 | 1,084 |
| Epilepsy | 139 | 326 | 145 | 48 | 118 | 444 | 248 | 362 | 610 |
| Cerebral Palsy | 35 | 144 | 84 | 21 | 29 | 213 | 91 | 172 | 263 |
| Tourette's | 39 | 101 | 34 | 23 | 8 | 143 | 75 | 99 | 174 |
| Severe Learning Difficulties (SLDs) | 17 | 53 | 99 | 7 | 15 | 147 | 107 | 62 | 169 |
| Profound and Multiple Learning Difficulties (PMLDs) | 9 | 31 | 42 | 12 | 13 | 57 | 35 | 47 | 82 |
| Down's Syndrome | 1 | 14 | 16 | 0 | 2 | 29 | 11 | 20 | 31 |
| Total <br> \% pupils with SEND | $\begin{aligned} & 17,560 \\ & 14.5 \% \end{aligned}$ | $\begin{array}{r} 31,250 \\ 12.9 \% \end{array}$ | 17,216 $11.2 \%$ | 6,471 $12.1 \%$ | $\begin{aligned} & 8,013 \\ & 9.9 \% \end{aligned}$ | 51,542 $13.5 \%$ | 33,311 $15.6 \%$ | 32,715 $10.8 \%$ | $\begin{array}{r} 66,026 \\ 12.8 \% \end{array}$ |

Some pupils have more than one SEND: they are counted under each individual category of SEND, but are counted only once in the total.

## Appendix Two

## Comparative Tables

Tables in Appendix Two show comparative figures for the 1,234 schools that participated in the Census in both 2014 and 2015. In each table the 2015 figures are printed in bold and the 2014 figures are printed in italics. Figures highlighted in yellow show the percentage change between the two years. Where schools are categorised by age, gender and by day and boarding, the categorisation is based on the school as it is in 2015. In a small number of cases this will differ from how the school would have been categorised in 2014.

Table 1a. Changes to pupil numbers by association
This table gives total school and pupil numbers for schools that participated in the Census in both 2014 and 2015, including a breakdown by ISC association. Where schools are in more than one association, the figures are included in all associations of which the school is in membership.

|  | GSA | HMC | IAPS | ISA | Soft | Total |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Number of schools | 162 | 268 | 591 | 320 | 109 | 1,234 |
| Pupils |  |  |  |  |  |  |

Table 11. Changes to British pupils with parents living overseas
For ISC schools that participated in the Census in both 2014 and 2015, this table shows the number of British pupils whose parents live overseas and the number of British pupils whose parents serve in HM Forces who are new to their school this year.

| British pupils whose parents: | Senior | Mixed-age | Junior | Single-sex: boys' | Single-sex: girls' | Co-ed | Schools with boarders | Day schools | Total |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Live abroad | 2,562 | 1,257 | 342 | 427 | 633 | 3,101 | 4,039 | 122 | 4,161 |
|  | 3,029 | 1,200 | 332 | 423 | 889 | 3,249 | 4,465 | 96 | 4,561 |
|  | -15.4\% | 4.8\% | 3.0\% | 0.9\% | -28.8\% | -4.6\% | -9.5\% | 27.1\% | -8.8\% |
| Serve in HM Forces | 1,778 | 1,730 | 1,303 | 262 | 456 | 4,093 | 4,460 | 351 | 4,811 |
|  | 1,840 | 1,838 | 1,136 | 235 | 439 | 4,140 | 4,516 | 298 | 4,814 |
|  | -3.4\% | -5.9\% | 14.7\% | 11.5\% | 3.9\% | -1.1\% | -1.2\% | 17.8\% | -0.1\% |
| New British pupils whose parents: |  |  |  |  |  |  |  |  |  |
| Live abroad | 790 | 342 | 88 | 102 | 143 | 975 | 1,183 | 37 | 1,220 |
|  | 971 | 400 | 123 | 116 | 236 | 1,142 | 1,460 | 34 | 1,494 |
|  | -18.6\% | -14.5\% | -28.5\% | -12.1\% | -39.4\% | -14.6\% | -19.0\% | 8.8\% | -18.3\% |
| Serve in HM Forces | 240 | 290 | 340 | 40 | 75 | 755 | 766 | 104 | 870 |
|  | 339 | 312 | 303 | 47 | 78 | 829 | 836 | 118 | 954 |
|  | -29.2\% | -7.1\% | 12.2\% | -14.9\% | -3.8\% | -8.9\% | -8.4\% | -11.9\% | -8.8\% |

Table 12. Changes to teacher numbers
This table shows the number of teachers in those ISC schools that participated in the Census in 2014 and 2015.

| Full-time | Senior | Mixed-age | Junior | Single-sex: <br> boys' | $\begin{array}{r} \text { Single-sex: } \\ \text { girls' } \end{array}$ | Co-ed | Schools with boarders | Day schools | Total |

independent schools council

First Floor
27 Queen Anne's Gate
London
SW1H 9BU
www.isc.co.uk
A Company Limited by Guarantee. Registered in England and Wales No. 1103760

[^0]:    1. Not displayed on map (fig 1) but according to SCIS data 2012, Edinburgh educates almost one fifth of its pupils independently.
[^1]:    Note: Some schools do not yet record ethnicity data; $85 \%$ of ISC schools were able to submit ethnicity data, equating to $75 \%$ of all ISC pupils. Scotland is not included in the above chart because there were too few schools submitting information to be statistically reliable. Further, London is likely to be underestimated due to only $70 \%$ of pupils disclosing ethnicity data in London.

    * ethnicity was first collected in 2009.

[^2]:    1 Includes HM Forces discounts, staff discounts, sibling discounts and clergy discounts

[^3]:    *Trends are only shown from 2011 onwards due to changes in methods of data collection relating to fee assistance

[^4]:    1. Based on DfE data 2013, the most recent year for which figures are available.
[^5]:    * Includes HM Forces discounts, staff discounts, sibling discounts and clergy discounts
    $\dagger$ Excludes data for schools in Northern Ireland, the Channel Islands and the Isle of Man
